

# DIN EN ISO 23771:2015-06 (E)

## Textile machinery - Guide to the design of textile machinery for reduction of the noise emissions (ISO 23771:2015)

---

| <b>Contents</b>        |   | <b>Page</b> |
|------------------------|---|-------------|
| Foreword .....         |   | 3           |
| Introduction .....     |   | 4           |
| 1                      | Scope .....   | 5           |
| 2                      | Normative references .....  | 5           |
| 3                      | Terms and definitions .....   | 5           |
| 4                      | Concept for noise emission control .....  | 6           |
| 4.1                    | Substantial requirements .....  | 6           |
| 4.2                    | Procedure .....   | 6           |
| 5                      | Textile machinery with significant noise hazard .....   | 7           |
| 5.1                    | General .....   | 7           |
| 5.2                    | List of textile machines with significant noise hazard .....  | 7           |
| 5.2.1                  | Spinning and spinning preparatory machines .....  | 7           |
| 5.2.2                  | Non-woven machinery .....   | 7           |
| 5.2.3                  | Yarn processing, cordage, and rope manufacturing machinery .....  | 7           |
| 5.2.4                  | Weaving and knitting preparatory machinery .....  | 8           |
| 5.2.5                  | Fabric manufacturing machinery .....  | 8           |
| 5.2.6                  | Dyeing and finishing machinery .....  | 8           |
| 6                      | Noise sources and noise control measures for particular textile machines .....                              | 9           |
| 6.1                    | General .....   | 9           |
| 7                      | Determination of compliance with the safety requirements and the efficiency of measures .....               | 21          |
| 7.1                    | Verification on the basis of noise emission values .....  | 21          |
| 7.2                    | Verification of noise control .....   | 21          |
| 7.3                    | Information for handbook .....  | 21          |
| Annex A (informative)  | Design examples .....   | 22          |
| Annex ZA (informative) | Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC ..... | 32          |
| Bibliography .....     |   | 33          |
