Textiles - Determination of dynamic hygroscopic heat generation

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Principle		1
5 Testing condition		1
6 Apparatus		2
7 Reagents and materials		5
8 Preparation of specimens		5
9 Testing procedure		6
10 Test report		7
Annex A (normative) Determination of the air flow rate for high humidity air		8
Annex B (informative) Interlaboratory test results		10
Annex C (informative) Example of a practical testing apparatus		14
Annex D (informative) Example of an interpretation of the test result		15
Bibliography		16
