# ISO 20947-2:2020 (E)

## Performance evaluation protocol for digital fitting systems — Part 2: Virtual garment

# Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

3.1 General
3.2 Lines on virtual pattern and their lengths

4 Functions

4.1 General
4.2 Data import
4.3 Digital fitting
4.4 Function to measure lengths of lines

5 Qualitative evaluation of performance

6 Quantitative evaluation of performance

6.1 General
6.2 Import of virtual fit mannequin (fit form)
6.3 Import of virtual garment pattern and line measurement
6.3.1 General
6.3.2 Upper
6.4 Import sewing information
6.5 Three-dimensional arrangement of virtual patterns
6.6 Virtual sewing
6.7 Measurement of lengths of virtual garment
6.8 Calculation of difference

7 Report

8 Evaluation

Annex A (normative) Format for report: Qualitative evaluation of a digital fitting system

Annex B (normative) Example of report: Qualitative evaluation of a digital fitting system

Annex C (informative) Format for report (Upper): Quantitative evaluation of a digital fitting system
