## Textiles - Smart textiles - Test method for determining the screen-touch properties of fabrics

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Principle .....	1
5	Apparatus .....	1
5.1	Test equipment .....	1
5.1.1	Reference screen .....	2
5.1.2	Cylindrical test bar .....	3
5.1.3	Force sensor .....	3
6	Atmosphere for conditioning and testing .....	3
7	Test specimen .....	3
8	Procedure .....	4
8.1	Blank (Control) test .....	4
8.2	Single-point test .....	4
8.3	Multi-points test .....	4
8.4	Slide test .....	5
8.4.1	Slide test in line .....	5
8.4.2	Slide test in circle .....	6
9	Expression of results .....	7
9.1	Single point test .....	7
9.2	Multi-points test .....	8
9.3	Slide test .....	8
9.3.1	Slide test in line .....	8
9.3.2	Slide test in circle .....	10
9.4	Deviation of the testing .....	11
10	Test report .....	11
Annex A (informative) Test equipment .....		12
Annex B (informative) Summary of extreme test environmental conditions in the development of the screen-touch property test procedure .....		14
