Erscheinungsdatum: 2019-07-12

Health informatics - Omics Markup Language (OML) (ISO/DIS 21393:2019); English
version prEN ISO 21393:2019

Contents	Page
Foreword.....	iv
Introduction.....	v
1 Scope	1
2 Normative references	1
3 Terms and definitions.....	1
4 OML specification	7
4.1 Specification requirements and OML positioning (informative)	7
4.2 OML Structure (normative).....	8
4.3 OML DTD (informative) and XML Schema (normative).....	8
5 OML development process (informative).....	8
6 Figures.....	9
7 Tables.....	49
Annex A (informative) Reference Works	78
A.1 Introduction.....	78
A.2 Use case analysis.....	78
A.2.1 Overview	79
A.2.2 Use case of SNP analysis as an example of Omics analysis	79
A.2.3 UML example of SNP analysis as an example of Omics analysis	79
A.2.4 Use case of database integration.....	80
A.2.5 Use case and required elements.....	80
A.3 Diversity of SNP databases	80
A.3.1 Diversity of databases.....	81
A.3.2 Diversity of data representation.....	81
A.3.3 Diversity of sequence variation data representation.....	81
A.4 Markup language comparison	81
A.4.1 Mapping of each markup language to the data categories	82
A.4.2 OML originated needs and its specifications	83
A.5 Interface analysis to Health Level Seven.....	83
A.5.1 Comparison with HL7 genomics model	83
A.5.2 Information Model of Genotype in HL7	84
A.6 Interface analysis to CEN en ISO13606	84
A.7 Interface analysis to SNOMED-CT	84
A.8 Interface analysis to WHO-ICD iCOS.....	85
Bibliography	86
