|------------------------------------------------------------------------------------------------------------------------------|------------|
| <b>Introduction .....</b>                                                                                                    | <b>3</b>   |
| <b>1 Scope .....</b>                                                                                                         | <b>5</b>   |
| <b>2 Normative references .....</b>                                                                                          | <b>6</b>   |
| <b>3 Terms and definitions .....</b>                                                                                         | <b>6</b>   |
| <b>4 Symbols and abbreviated terms .....</b>                                                                                 | <b>8</b>   |
| <b>5 Definition of the data contents and format .....</b>                                                                    | <b>9</b>   |
| 5.1 General considerations .....                                                                                             | 9          |
| 5.2 Specifications for the data structure .....                                                                              | 10         |
| 5.3 Pointer section – Section 0 .....                                                                                        | 15         |
| 5.4 Header information - Patient data / ECG metadata – Section 1 .....                                                       | 16         |
| 5.5 Huffman tables – Section 2 .....                                                                                         | 33         |
| 5.6 ECG leads definition – Section 3 .....                                                                                   | 35         |
| 5.7 Reserved for legacy SCP-ECG versions – Section 4 .....                                                                   | 44         |
| 5.8 Encoded type 0 reference beat data – Section 5 .....                                                                     | 46         |
| 5.9 Short-term ECG Rhythm data – Section 6 .....                                                                             | 49         |
| 5.10 Global ECG measurements – Section 7 .....                                                                               | 51         |
| 5.11 Storage of full text interpretive statements – Section 8 .....                                                          | 64         |
| 5.12 Storage of manufacturer specific interpretive statements and data related to the<br>overreading trail – Section 9 ..... | 66         |
| 5.13 Per-lead ECG measurements – Section 10 .....                                                                            | 66         |
| 5.14 Storage of the universal ECG interpretive statement codes – Section 11 .....                                            | 75         |
| 5.15 Long-term ECG rhythm data – Section 12 .....                                                                            | 79         |
| 5.16 Stress tests, Drug trials and Protocol based ECG recordings Metadata – Section 13 .....                                 | 84         |
| 5.17 Selected ECG Sequences Repository – Section 14 .....                                                                    | 95         |
| 5.18 Beat-by-Beat ECG measurements and annotations – Section 15 .....                                                        | 99         |
| 5.19 Selected ECG beats measurements and annotations – Section 16 .....                                                      | 114        |
| 5.20 Pacemaker Spikes measurements and annotations – Section 17 .....                                                        | 123        |
| 5.21 Additional ECG annotations – Section 18 .....                                                                           | 137        |
| <b>Annex A (normative) Supplementary information and additional encoding specifications .....</b>                            | <b>144</b> |
| <b>Annex B (informative) Universal ECG interpretation statements codes .....</b>                                             | <b>152</b> |
| <b>Annex C (informative) Definition of compliance with the SCP ECG standard .....</b>                                        | <b>178</b> |
| <b>Annex D (Informative) Methodology of the recommended ECG signal compression technique .....</b>                           | <b>187</b> |
| <b>Annex E (informative) Cross-references to other ECG standards .....</b>                                                   | <b>223</b> |
| <b>Annex F (informative) Implementation Recommendations .....</b>                                                            | <b>226</b> |
| <b>Annex G (informative) Glossary .....</b>                                                                                  | <b>228</b> |
| <b>Bibliography .....</b>                                                                                                    | <b>230</b> |
