<b>Foreword</b> .....	<b>v</b>
<b>Introduction</b> .....	<b>vi</b>
<b>1 Scope</b> .....	<b>1</b>
<b>2 Normative references</b> .....	<b>2</b>
<b>3 Terms and definitions</b> .....	<b>2</b>
3.1 Healthcare.....	2
3.2 System concepts.....	3
3.3 Concepts relating to organization.....	4
3.4 Community concepts.....	5
3.5 Behaviour concepts.....	5
3.6 Policy concepts.....	8
3.7 Accountability, responsibility and time concepts.....	8
3.8 Information Management.....	10
<b>4 Symbols and abbreviations</b> .....	<b>11</b>
<b>5 Methodology for the specification of the architecture</b> .....	<b>11</b>
5.1 Viewpoints for the specification of the architecture.....	12
5.2 The HISA specification procedure.....	13
5.2.1 The Strategic Paradigm.....	13
5.2.2 Specification of the enterprise viewpoint.....	13
5.2.3 Specification of the information viewpoint.....	14
5.2.4 Specification of the computational viewpoint.....	14
5.3 Iterative specification.....	15
5.4 Viewpoints specification languages, notations and levels of abstraction.....	15
<b>6 HISA overview</b> .....	<b>17</b>
6.1 General requirement.....	17
6.2 Enterprise viewpoint.....	17
6.3 Information viewpoint.....	19
6.4 Computational viewpoint.....	19
<b>7 Methodology for extensions</b> .....	<b>20</b>
<b>8 Conformance criteria</b> .....	<b>21</b>
8.1 Conformance of specification documents to the HISA methodology.....	21
8.2 Conformance of middleware products to the HISA architectural requirements.....	21
<b>9 The HISA Enterprise viewpoint</b> .....	<b>22</b>
9.1 Introduction(informative).....	22
9.1.1 General.....	22
9.1.2 The regional, inter-enterprise perspective.....	22
9.1.3 The medical/clinical perspective.....	23
9.1.4 The operational/clinical and organizational process model perspective.....	25
9.1.5 The information services and their complexity.....	28
9.2 The fundamental workflows and groups of users' activities to be supported by the middleware.....	29
9.3 General information requirements for all users' activities.....	30
9.3.1 Introduction.....	30
9.3.2 Common attributes.....	30
9.3.3 Extensibility.....	31

9.3.4	Versioning.....	31
9.3.5	Auditing.....	31
9.3.6	Handling of life cycle.....	32
9.4	Subject of care workflow.....	32
9.4.1	Textual description of requirements.....	32
9.4.2	Use-case examples (informative).....	34
9.5	Healthcare information workflow.....	39
9.5.1	Textual specification of requirements.....	39
9.5.2	Use-case examples (informative).....	40
9.6	Healthcare activity management workflow.....	41
9.6.1	Textual description of requirements.....	41
9.6.2	Use-case examples (informative).....	44
9.7	Resources management activities/Textual description of requirements.....	47
9.8	Management activities for users and authorizations / textual description of requirements.....	48
9.9	Classifications, coding and dictionaries management activities / textual description of requirements.....	49
9.9.1	Examples of Functions from ISO 10781 Health Informatics – HL7 Electronic Health Records-System Functional Model, Release 2 (EHR FM), providing support.....	51
	<b>Annex A (informative) Highlights of Open Distributed Processing (ODP).....</b>	<b>53</b>
	<b>Annex B (informative) Rationale for the federative structure of the Health Informatics Service Architecture.....</b>	<b>56</b>
	<b>Annex C (informative) Cross-Domain Interoperability.....</b>	<b>59</b>
	<b>Bibliography.....</b>	<b>67</b>
