DIN SPEC 91421:2020-12 (E)

Quality assurance of recycling produ cts from dry toilets for use in horticulture

Contents

Page

Foreword ... 3

Introduction ... 5

1 Scope ... 9

2 Normative references ... 9

3 Terms and definitions ... 12

4 Requirements ... 15
4.1 General ... 15
4.2 Relevant requirement categories ... 15
4.2.1 Epidemiological hygiene or infection control ... 15
4.2.2 Phytohygiene ... 15
4.2.3 Low pollution ... 15
4.2.4 Horticultural suitability ... 15
4.2.5 Other ... 16
4.3 Compliance with requirements ... 16
4.4 Analyses to be carried out ... 16

Annex A (normative) **Limit values, labelling thresholds and minimum contents for recycling fertilizers from parent substrates of human origin** ... 18

Annex B (informative) **Notes on sampling for analyses of recycling fertilizers** ... 33

Annex C (informative) **List of some laboratories** ... 37

Annex D (informative) **Possible deviations of analyses** ... 38

Annex E (informative) **Practical application recommendations** ... 39
E.1 General ... 39
E.2 Recommendations for the horticultural use of recycling fertilizers ... 39
E.3 Technical application recommendations for the treatment of contents from dry toilets ... 40
E.4 Technical application recommendations for the operation of dry toilets ... 41

Annex F (informative) **Presentation of laws and regulations** ... 43

Annex G (informative) **Results of the proof of concept trial** ... 45

Bibliography ... 47
