

# DIN SPEC 91416:2021-07 (E)

## Digitalisation of the shoe production process - Foot, last and shoe characteristics; Text in English

---

<b>Contents</b>	<b>Page</b>
Foreword .....	4
Introduction.....	5
1 Scope .....	6
2 Normative references .....	6
3 Terms and definitions.....	6
4 Rating and categories of data capturing .....	12
4.1 General .....	12
4.2 Categories for geometry capturing summary .....	12
4.2.1 General .....	12
4.2.2 Manual measurement with measuring tape or similar .....	13
4.2.3 Manual measurement with instruments.....	13
4.2.4 Digital 2D static measurement .....	14
4.2.5 Partial digital 3D static measurement.....	14
4.2.6 Full digital 3D static measurement .....	14
4.2.7 Digital 3D dynamic measurement.....	14
4.3 Categories for pressure capturing.....	14
4.3.1 General .....	14
4.3.2 Static contact area .....	15
4.3.3 Static relative pressure .....	15
4.3.4 Static absolute pressure.....	15
4.3.5 Dynamic contact area.....	15
4.3.6 Dynamic relative pressure.....	15
4.3.7 Dynamic absolute pressure .....	16
4.4 Encoding of results.....	16
5 Computing digital data .....	16
5.1 General .....	16
5.2 Orientation.....	17
6 Table and drawings .....	18
7 Data processing.....	27
Annex A (informative) Example for the datasheet.....	28
A.1 Example for a datasheet for foot, last and shoe data.....	28
Bibliography.....	31

## Figures

Figure 1 — Dimensions foot 3 levels .....	21
Figure 2 — Dimensions leg sagittal planes .....	22
Figure 3 — Dimensions shoes including foot — horizontal plane.....	23
Figure 4 — Dimensions sagittal plane last.....	23

Figure 5 — Dimensions frontal plane lasts.....	24
Figure 6 — Dimensions shoe heel sagittal plane .....	24
Figure 7 — Dimensions shoe sole sagittal plane.....	25
Figure 8 — Specific shoe measurements .....	25
Figure 9 — Alignment of bars in the Coordinate System .....	26
Figure 10 — Alignment of shoe in the Coordinate System .....	26
Figure 11 — Longitudinal axis.....	26
Figure 12 — Origin.....	27

## Tables

Table 1 — Categories for geometry capturing.....	13
Table 2 — Categories for pressure capturing .....	14
Table 3 — Definition of data quality sheet.....	16
Table 4 — Foot, last and shoe data.....	18
Table A.1 — Datasheet.....	28
