

DIN SPEC 91383:2021-07 (E)

JT Industrial Application Package (JTIAP); Text in English

Contents	Page
Foreword	3
Introduction.....	5
1 Scope.....	7
2 Normative references.....	7
3 Terms and definitions.....	7
4 Support of industrial use cases and need for scope extension	8
5 File format	11
5.1 General.....	11
5.2 File structure — defined in PSI 14-1:2021	11
5.3 File Header — defined in PSI 14-1:2021	11
5.4 TOC Segment — defined in PSI 14-1:2021.....	12
5.5 Data Segment — defined in PSI 14-1:2021.....	12
5.6 Geometry Segment.....	13
5.7 JT PMI Properties — defined in PSI 14-1:2021.....	13
6 Enhancement of the ISO 14306:2017 functionalities.....	13
6.1 General.....	13
6.2 Reading 10.5 JT — Format changes.....	14
6.3 Polygon Set LOD Element.....	14
6.4 Better compression	14
6.4.1 General.....	14
6.4.2 LZMA replaces ZLIB.....	14
6.4.3 Enhanced Int32 Compressed Data Paket.....	14
6.5 Enhanced Compressed Auxiliary Fields Array	15
6.6 Rationalized Topomesh Compressed Rep Data.....	15
6.7 Added per field final flags to JT attributes.....	15
7 JT and AP242 Domain Model XML	15
Annex A (informative) History and evolution of JT.....	16
Bibliography	18
