DIN SPEC 91411:2022-08 (E)

Requirements for the technical representation of magnetic measurement scales in design drawings

Contents

Page

Foreword 4

Introduction 6

1 Scope 9

2 Normative references 9

3 Terms and definitions 9

4 Abstract 27

5 Requirements for drawings of measurement scales 27
5.1 Application of magnetic measurement scales 27
5.2 Overview 28
5.2.1 General 28
5.2.2 Dipole magnets 28
5.2.3 Multipole magnets 28
5.2.4 Magnetic scales 29
5.2.5 Track types and track lengths 30

6 Characterization of magnetic measurement scales 33
6.1 General test conditions 33
6.2 Definition of accuracy 33
6.2.1 Introduction 33
6.2.2 Accuracy 33
6.2.3 Deviation 34
6.2.4 Step 34
6.2.5 Accuracy class 34
6.2.6 Presentation of the different forms of deviation 34
6.2.7 Accuracy of multipole scales 34

7 Required data for drawings 36

Annex A (informative) Example drawings 39

Bibliography 44
