

ISO/IEC 14543-5-3:2012-02 (E)

Information technology - Home electronic system (HES) architecture - Part 5-3: Intelligent grouping and resource sharing for HES Class 2 and Class 3 - Basic application

| Contents | Page |
|--|-------------|
| FOREWORD..... | 3 |
| INTRODUCTION..... | 4 |
| 1 Scope..... | 5 |
| 2 Normative references | 5 |
| 3 Terms, definitions and abbreviations | 6 |
| 3.1 Terms and definitions | 6 |
| 3.2 Abbreviations | 6 |
| 4 Conformance..... | 7 |
| 5 Overview | 7 |
| 5.1 Summary..... | 7 |
| 5.2 Design criteria | 8 |
| 5.2.1 Relationship between basic application and IGRS | 8 |
| 5.2.2 Relationship between basic application and transport protocol | 8 |
| 5.2.3 Relationship between basic application and existing file sharing system..... | 8 |
| 5.2.4 Relationship between basic application and file format | 8 |
| 5.2.5 Basic application interaction model..... | 8 |
| 5.2.6 Design principle..... | 9 |
| 5.3 Explanation remarks..... | 10 |
| 6 Digital media forwarding, storage and playback system | 10 |
| 6.1 Overview | 10 |
| 6.2 Media interaction flow selection..... | 11 |
| 6.3 Specific description of digital media forwarding, storage and playback system | 12 |
| 6.4 Software profile of digital media forwarding, storage and playback system | 14 |
| 6.5 Software interfaces | 16 |
| 6.6 Hardware interfaces | 16 |
| 6.6.1 Network interfaces..... | 16 |
| 6.6.2 Media Client interface..... | 17 |
| Bibliography..... | 18 |
| Figure 1 – IGRS application interaction model | 9 |
| Figure 2 – IGRS TV application scenario | 11 |
| Figure 3 – Media interaction model | 12 |
| Figure 4 – Software profile of digital media forwarding, storage and playback system | 16 |
| Table 1 – Protocol conformance..... | 12 |
| Table 2 – Function description | 13 |
| Table 3 – Media format supported..... | 14 |
| Table 4 – Network interfaces | 17 |
| Table 5 – Media Client interfaces..... | 17 |
