

# ISO 14708-1:2014-08 (E)

**Implants for surgery - Active implantable medical devices - Part 1: General requirements for safety, marking and for information to be provided by the manufacturer**

---

## Contents

	Page
Foreword .....	v
Introduction .....	vi
1 Scope .....	1
2 Normative references .....	1
3 Terms and definitions .....	2
4 Symbols and abbreviations (optional) .....	7
5 General requirements for active implantable medical devices .....	7
5.1 General requirements for non-implantable parts .....	7
5.2 General requirements for software .....	7
5.3 Usability of non-implantable parts .....	7
5.4 Data security and protection from harm caused by unauthorized information tampering	8
5.5 General requirements for risk management .....	8
5.6 Misconnection of parts of the active implantable medical device .....	9
6 Requirements for particular active implantable medical devices .....	9
7 General arrangement of the packaging .....	9
8 General markings for active implantable medical devices .....	9
9 Markings on the sales packaging .....	10
10 Construction of the sales packaging .....	11
11 Markings on the sterile pack .....	12
12 Construction of the non-reusable pack .....	13
13 Markings on the active implantable medical device .....	13
14 Protection from unintentional biological effects being caused by the active implantable medical device .....	14
15 Protection from harm to the patient or user caused by external physical features of the active implantable medical device .....	16
16 Protection from harm to the patient caused by electricity .....	16
17 Protection from harm to the patient caused by heat .....	17
17.1 Protection from harm to the patient caused by heat .....	17
17.2 Active implantable medical device intended to supply heat .....	17

18	<b>Protection from ionizing radiation released or emitted from the activeimplantable medicaldevice .....</b>	17
19	<b>Protection from unintended effects caused by the activeimplantablemedicaldevice .....</b>	17
20	<b>Protection of the activeimplantablemedicaldevice from damage caused by externaldefibrillators .....</b>	19
21	<b>Protection of the activeimplantablemedicaldevice from changes caused by electrical fieldsapplieddirectlytothe patient .....</b>	23
22	<b>Protection of the activeimplantablemedicaldevice from changes caused by miscellaneous medical treatments .....</b>	23
23	<b>Protection of the activeimplantablemedicaldevice from mechanical forces .....</b>	24
24	<b>Protection of the activeimplantablemedicaldevice from damage caused by electrostatic discharge .....</b>	26
25	<b>Protection of the activeimplantablemedicaldevice from damage caused by atmospheric pressure changes .....</b>	26
26	<b>Protection of the activeimplantablemedicaldevice from damage caused by temperature changes .....</b>	26
27	<b>Protection of the activeimplantablemedicaldevice from electromagnetic non- ionizing radiation .....</b>	27
28	<b>Accompanying documentation .....</b>	28
	<b>Annex A (informative) General guidance and rationale .....</b>	32
	<b>Annex B (informative) Relationship between the fundamental principles in ISO/TR 14283:2004 Bibliography .....</b>	56
