

ISO/IEC 14543-5-12:2019-04 (E)

Information technology - Home electronic systems (HES) architecture - Part 5-12: Intelligent grouping and resource sharing for HES Class 2 and Class 3 - Remote access test and verification

Contents	Page
FOREWORD.....	4
INTRODUCTION.....	5
1 Scope.....	7
2 Normative references	7
3 Terms, definitions and abbreviated terms	7
3.1 Terms and definitions.....	7
3.2 Abbreviated terms.....	8
4 Conformance	8
5 Overview	8
5.1 Purpose	8
5.2 Test configuration	8
5.3 Requirement of verification	9
5.4 Test environment	9
6 IGRS RA test suite structure.....	9
6.1 Structure overview	9
6.2 IGRS RA user conformance test suite	10
6.3 IGRS RA device conformance test suite.....	10
6.4 Rules of the test suite	11
7 IGRS RA user conformance test suite.....	11
7.1 User register conformance test suite.....	11
7.1.1 Message and flow.....	11
7.1.2 Test case set.....	11
7.2 User login conformance test suite	12
7.2.1 Message and flow.....	12
7.2.2 Test case set.....	12
7.3 Relationship establishment conformance test suite	12
7.3.1 Message and flow.....	12
7.3.2 Test case set.....	13
7.4 Relationship releasing conformance test suite	13
7.4.1 Message and flow.....	13
7.4.2 Test case.....	13
7.5 Device verification code management conformance test suite.....	14
7.5.1 Message and flow.....	14
7.5.2 Test case.....	14
7.6 Device access rights configuration conformance test suite.....	15
7.6.1 Message and flow.....	15
7.6.2 Test case.....	15
7.7 Message exchange conformance test suite	16
7.7.1 Message and flow.....	16
7.7.2 Test case set.....	16
7.8 User logout conformance test suite	17

7.8.1	Message and flow	17
7.8.2	Test case set	18
8	IGRS RA device conformance test suite	18
8.1	Device registration conformance test suite	18
8.1.1	Message and flow	18
8.1.2	Test case set	18
8.2	Device login conformance test suite	19
8.2.1	Message and flow	19
8.2.2	Test case set	19
8.3	Relationship releasing conformance test suite	19
8.3.1	Message and flow	19
8.3.2	Test case set	20
8.4	Device verification code management conformance test suite	20
8.4.1	Message and flow	20
8.4.2	Test case	20
8.5	Message exchange conformance test suite	21
8.5.1	Message and flow	21
8.5.2	Test case set	21
8.6	Device logout conformance test suite	23
8.6.1	Message and flow	23
8.6.2	Test case	23
