

ISO/IEC 14543-5-102:2020-02 (E)

Information technology - Home electronic system (HES) architecture - Part 5-102: Intelligent grouping and resource sharing - Remote universal management profile

| Contents | Page |
|--|------|
| FOREWORD..... | 4 |
| INTRODUCTION..... | 5 |
| 1 Scope..... | 7 |
| 2 Normative references | 7 |
| 3 Terms, definitions and abbreviated terms | 8 |
| 3.1 Terms and definitions..... | 8 |
| 3.2 Abbreviated terms..... | 10 |
| 4 Conformance..... | 10 |
| 5 IGRS RUMP overview..... | 10 |
| 6 IGRS RA and RUMP system architecture and message exchange model overview..... | 11 |
| 6.1 IGRS RA system structure | 11 |
| 6.2 RUMP protocol layer hierarchy..... | 12 |
| 6.3 Server types | 13 |
| 6.3.1 IGRS RA message exchange model in the IRSP..... | 13 |
| 6.3.2 Account server | 14 |
| 6.3.3 Message server | 14 |
| 6.3.4 Application server..... | 15 |
| 6.3.5 IRSP external application server..... | 15 |
| 6.4 Message exchange between user or controlled device and message server..... | 15 |
| 6.4.1 Device registration management..... | 15 |
| 6.4.2 User/controller ↔ controlled device message exchange that needs response (control message)..... | 16 |
| 6.4.3 Controlled device ↔ user/controller message exchange that does not need response (status update) | 17 |
| 6.4.4 Controlled device ↔ user/controller message exchange that does not need response (alarm message)..... | 18 |
| 6.4.5 Controlled device ↔ user/controller message exchange that that needs response (firmware version query)..... | 18 |
| 6.5 Workflow..... | 19 |
| 6.5.1 LAN control | 19 |
| 6.5.2 WAN control | 20 |
| 7 RUMP..... | 21 |
| 7.1 Protocol overview | 21 |
| 7.2 Applications | 21 |
| 7.3 Logical components | 21 |
| 7.4 Device ID..... | 21 |
| 7.5 RUMP message format | 22 |
| 7.6 RUMP response and status message format..... | 23 |
| 7.7 RUMP water heater..... | 23 |
| 7.7.1 Water heater control message format | 23 |
| 7.7.2 Water heater response and status message format | 24 |
| 7.7.3 Water heater alarm message format | 25 |

| | | |
|--------|--|----|
| 7.8 | RUMP air conditioner | 26 |
| 7.8.1 | Air conditioner control message format | 26 |
| 7.8.2 | Air conditioner response and status message format | 27 |
| 7.8.3 | Air conditioner alarm message format | 27 |
| 7.9 | RUMP refrigerator | 28 |
| 7.9.1 | Refrigerator control message format | 28 |
| 7.9.2 | Refrigerator response and status message format | 29 |
| 7.9.3 | Refrigerator alarm message format | 29 |
| 7.10 | RUMP microwave oven | 30 |
| 7.10.1 | Microwave oven control message format | 30 |
| 7.10.2 | Microwave oven response and status message format | 31 |
| 7.10.3 | Microwave oven alarm message format | 31 |
| 7.11 | Device status query message | 32 |
| 7.12 | Device version query message | 32 |
| | Bibliography | 34 |
| | | |
| | Figure 1 – IGRS RA system structure | 11 |
| | Figure 2 – RUMP protocol layer | 12 |
| | Figure 3 – RUMP message interaction flow | 13 |
| | Figure 4 – Message exchange models in IGRS RA system | 14 |
| | Figure 5 – Flow of message exchange between user/controller and controlled device that needs response | 16 |
| | Figure 6 – Flow of message exchange between controlled device and user/controller that does not need response | 17 |
| | Figure 7 – LAN control flow diagram | 20 |
| | Figure 8 – Controller–IRSP–device WAN interaction process | 21 |
| | | |
| | Table 1 – Device ID definitions | 22 |
| | Table 2 – RUMP message format | 22 |
| | Table 3 – RUMP message identifier | 23 |
| | Table 4 – Control message body | 23 |
| | Table 5 – Water heater control message format | 24 |
| | Table 6 – Water heater response and status message format | 25 |
| | Table 7 – Water heater alarm message format | 26 |
| | Table 8 – Air conditioner control message format | 26 |
| | Table 9 – Air conditioner response and status message format | 27 |
| | Table 10 – Air conditioner alarm message format | 28 |
| | Table 11 – Refrigerator control message format | 28 |
| | Table 12 – Refrigerator response and status information format | 29 |
| | Table 13 – Refrigerator alarm message format | 30 |
| | Table 14 – Microwave oven control message format | 30 |
| | Table 15 – Microwave oven response and status message format | 31 |
| | Table 16 – Microwave oven alarm message format | 32 |
| | Table 17 – Device status query request message format | 32 |
| | Table 18 – Device version query request message format | 32 |
| | Table 19 – Device version query response message format | 33 |
