ISO 11929-4:2022-07 (E)

Determination of the characteristic limits (decision threshold, detection limit and limits of the coverage interval) for measurements of ionizing radiation - Fundamentals and application - Part 4: Guidelines to applications

Contents

Page

Foreword ... **vii**

Introduction ... **viii**

1 Scope ... **1**

2 Normative references ... **2**

3 Terms and definitions ... **2**

4 Quantities and symbols ... **3**

5 Summary of this document ... **5**
5.1 Procedures according to ISO 11929 (all parts) ... 5
5.2 Survey on the examples ... 5
5.3 General stipulations ... 8

6 Counting measurements with small or moderate uncertainties ... **9**
6.1 Definition of the task and general aspects ... 9
6.2 Model of evaluation and standard uncertainty ... 9
6.3 Available information, input data, and specifications ... 9
6.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 10
6.4.1 Background effect ... 10
6.4.2 Primary result and its associated standard uncertainty ... 10
6.4.3 Standard uncertainty as a function of an assumed true value ... 10
6.4.4 Decision threshold ... 10
6.4.5 Detection limit ... 11
6.4.6 Limits of coverage intervals ... 11
6.4.7 The best estimate and its associated standard uncertainty ... 11
6.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 11
6.6 Assessment and explanations ... 13

7 Counting measurement with small count numbers ... **14**
7.1 Definition of the task and general aspects ... 14
7.2 Model of evaluation and standard uncertainty ... 14
7.3 Available information, input data, and specifications ... 14
7.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 15
7.4.1 Background effect ... 15
7.4.2 Primary result and its associated standard uncertainty ... 15
7.4.3 Standard uncertainty as a function of an assumed true value ... 16
7.4.4 Decision threshold ... 16
7.4.5 Detection limit ... 16
7.4.6 Limits of coverage intervals ... 17
7.4.7 The best estimate and its associated standard uncertainty ... 17
7.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 17
7.6 Assessment and explanations ... 18
7.7 An alternative example of a measurement with small count numbers ... 19
7.7.1 General ... 19
7.7.2 Background effect ... 20
7.7.3 Primary result and its associated standard uncertainty ... 20
7.7.4 Standard uncertainty as a function of an assumed true value ... 20
7.7.5 Decision threshold ... 20
7.7.6 Detection limit ... 21
7.7.7 Limits of coverage intervals ... 21
7.7.8 The best estimate and its associated standard uncertainty ... 21
7.8 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 22
7.9 Assessment of the alternative example and explanations ... 23

8 Counting measurements with large uncertainties in the numerator of the calibration factor ... **23**

8.1 Definition of the task and general aspects ... 23
8.2 Model of evaluation and standard uncertainty ... 24
8.3 Available information, input data, and specifications ... 24
8.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 25
8.4.1 Background effect ... 25
8.4.2 Primary result and its associated standard uncertainty ... 25
8.4.3 Standard uncertainty as a function of an assumed true value ... 25
8.4.4 Decision threshold ... 25
8.4.5 Detection limit ... 26
8.4.6 Limits of coverage intervals ... 26
8.4.7 The best estimate and its associated standard uncertainty ... 26
8.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 26
8.6 Assessment and explanations ... 28

9 Counting measurements with large uncertainties in the denominator of the calibration factor ... 28
9.1 Definition of the task and general aspects ... 28
9.2 Model of evaluation and standard uncertainty ... 29
9.3 Available information, input data, and specifications ... 29
9.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 30
9.4.1 Background effect ... 30
9.4.2 Primary result and its associated standard uncertainty ... 30
9.4.3 Standard uncertainty as a function of an assumed true value ... 31
9.4.4 Decision threshold ... 31
9.4.5 Detection limit ... 31
9.4.6 Limits of coverage intervals ... 31
9.4.7 The best estimate and its associated standard uncertainty ... 32
9.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 32
9.6 Assessment and explanations ... 33

10 Counting measurements with shielding of the background ... 34
10.1 Definition of the task and general aspects ... 34
10.2 Model of evaluation and standard uncertainty ... 34
10.3 Available information, input data, and specifications ... 34
10.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 35
10.4.1 Background effect ... 35
10.4.2 Primary result and its associated standard uncertainty ... 35
10.4.3 Standard uncertainty as a function of an assumed true value ... 35
10.4.4 Decision threshold ... 35
10.4.5 Detection limit ... 36
10.4.6 Limits of coverage intervals ... 36
10.4.7 The best estimate and its associated standard uncertainty ... 36
10.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 36
10.6 Assessment and explanations ... 38

11 Counting clearance measurement ... 38
11.1 Definition of the task and general aspects ... 38
11.2 Model of evaluation and standard uncertainty ... 39
11.3 Available information, input data, and specifications ... 39
11.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 40
11.4.1 Background effect ... 40
11.4.2 Primary result and its associated standard uncertainty ... 40
11.4.3 Standard uncertainty as a function of an assumed true value ... 40
11.4.4 Decision threshold ... 41
11.4.5 Detection limit ... 41
11.4.6 Limits of coverage intervals ... 41
11.4.7 The best estimate and its associated standard uncertainty ... 42
11.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 42
11.6 Assessment and explanations ... 43

12 Gamma-spectrometry of Uranium-235 with interference by Radium-226 ... 44
12.1 Definition of the task and general aspects ... 44
12.2 Model of evaluation and standard uncertainty ... 45
12.3 Available information, input data, and specifications ... 46
12.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 47
12.4.1 Background effect ... 47
12.4.2 Primary result and its associated standard uncertainty ... 47
12.4.3 Standard uncertainty as a function of an assumed true value ... 48
12.4.4 Decision threshold ... 49
12.4.5 Detection limit ... 49
12.4.6 Limits of coverage intervals ... 49
12.4.7 The best estimate and its associated standard uncertainty ... 50
12.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 50
12.6 Assessment and explanations ... 51

13 Black box measurements ... 52
13.1 Definition of the task and general aspects ... 52
13.2 Model of evaluation and standard uncertainty ... 52
13.3 Available information, input data, and specifications ... 53
13.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 53
13.4.1 Background effect ... 53
13.4.2 Primary result and its associated standard uncertainty ... 54
13.4.3 Standard uncertainty as a function of an assumed true value ... 54
13.4.4 Decision threshold ... 54
13.4.5 Detection limit ... 55
13.4.6 Limits of coverage intervals ... 55
13.4.7 The best estimate and its associated standard uncertainty ... 55
13.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 56
13.6 Assessment and explanations ... 57

14 Counting measurements with unknown random influence of sample treatment ... 57
14.1 Definition of the task and general aspects ... 57
14.2 Model of evaluation and standard uncertainty ... 58
14.3 Available information, input data, and specifications ... 58
14.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 59
14.4.1 Background effect ... 59
14.4.2 Primary result and its associated standard uncertainty ... 59
14.4.3 Standard uncertainty as a function of an assumed true value ... 60
14.4.4 Decision threshold ... 60
14.4.5 Detection limit ... 61
14.4.6 Limits of coverage intervals ... 61
14.4.7 The best estimate and its associated standard uncertainty ... 61
14.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 61
14.6 Assessment and explanations ... 63

15 Counting measurement with known influence of sample treatment ... 63
15.1 Definition of the task and general aspects ... 63
15.2 Model of evaluation and standard uncertainty ... 64
15.3 Available information, input data, and specifications ... 65
15.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 ... 66
15.4.1 Determination of the relative uncertainty of the sample treatment ... 66
15.4.2 Background effect ... 66
15.4.3 Primary result and its associated standard uncertainty ... 66
15.4.4 Standard uncertainty as a function of an assumed true value ... 67
15.4.5 Decision threshold ... 67
15.4.6 Detection limit ... 68
15.4.7 Limits of coverage intervals ... 68
15.4.8 The best estimate and its associated standard uncertainty ... 68
15.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 ... 68
15.6 Assessment and explanations ... 70

16 Dose measurement using an active personal dosemeter **70**
16.1 Definition of the task and general aspects 70
16.2 Model of evaluation and standard uncertainty 70
16.3 Available information, input data, and specifications 71
16.4 Evaluation of the measurement and characteristic limits according to ISO 11929-1 71
16.4.1 Background effect 71
16.4.2 Primary result and its associated standard uncertainty 72
16.4.3 Standard uncertainty as a function of an assumed true value 72
16.4.4 Decision threshold 72
16.4.5 Detection limit 73
16.4.6 Limits of coverage intervals 73
16.4.7 The best estimate and its associated standard uncertainty 74
16.5 Documentation of the results obtained by ISO 11929-1 and ISO 11929-2 74
16.6 Assessment and explanations 75

17 Dose rate measurement using a neutron area monitor **76**
17.1 Definition of the task and general aspects 76
17.2 Model of evaluation and standard uncertainty 77
17.3 Available information, input data, and specifications 78
17.4 Evaluation of the measurement and characteristic limits 80
17.4.1 Background effect 80
17.4.2 Primary result and its associated standard uncertainty 80
17.4.3 Standard uncertainty as a function of an assumed true value 80
17.4.4 Decision threshold 81
17.4.5 Detection limit 82
17.4.6 Limits of coverage intervals 82
17.4.7 The best estimate and its associated standard uncertainty 83
17.5 Documentation of the results 83
17.6 Assessment and explanations 84

Annex A (informative) **Determination of a calibration factor** **85**

Annex B (informative) **Calculations according to ISO 11929-2** **90**

Bibliography **93**
