ISO 14708-1:2000-11 (E)

Implants for surgery - Active implantable medical devices - Part 1: Gen eral requirements for safety, marking and for information to be provided by the manufacturer

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Symbols and abbreviated terms 4

5 General requirements for non-implantable parts 4

6 Requirements for particular active implantable medical devices 4

7 General arrangement of the packaging 5

8 General markings for active implantable medical devices 5

9 Markings on the sales packaging 5

10 Construction of the sales packaging 6

11 Markings on the sterile pack 7

12 Construction of the non-reusable pack 8

13 Markings on the active implantable medical device 8

14 Protection from unintentional biological effects caused by the active implantable medical device 9

15 Protection from harm to the patient or user caused by external physical features of the active implantable medical device 10

16 Protection from harm to the patient caused by electricity 10

17 Protection from harm to the patient caused by heat 10

18 Protection from ionizing radiation released or emitted from the active implantable medical device 10

19 Protection from unintended effects caused by the device 11

20 Protection of the device from damage caused by external defibrillators 12

21 Protection of the device from changes caused by high-power electrical fields applied directly to the patient 14

22 Protection of the active implantable medical device from changes caused by miscellaneous medical treatments 14

23 Protection of the active implantable medical device from mechanical forces 14

24 Protection of the active implantable medical device from damage caused by electrostatic discharge 15

25 Protection of the active implantable medical device from damage caused by atmospheric pressure changes 16

26 Protection of the active implantable medical device from damage caused by temperature changes 16

27 Protection of the active implantable medical device from electromagnetic non-ionizing radiation 17

28 Accompanying documentation 17

Annex A (informative) Relationship between the fundamental principles in ISO/TR 14283 and the principles listed in Annex A 32

Annex C (informative) Rationale 34
