## Steel wire and wire products - Part 1: General test methods

---

<b>Contents</b>		<b>Page</b>
	Foreword .....	iv
1	Scope .....	1
2	Normative references .....	1
3	Tensile test .....	2
4	Simple torsion test .....	2
5	Reverse bend test .....	2
6	Wrapping test .....	3
7	Bend test .....	3
8	Reverse torsion test .....	3
9	Compression test .....	4
10	Deep etch test .....	4
11	Hardness test .....	4
12	Quench hardenability test .....	4
13	Fatigue test (bend and axial) .....	5
14	Coil set measurements .....	5
15	Artificial ageing .....	7
16	Decarburization test .....	7
17	Non-destructive tests .....	8
18	Grain size test .....	8
19	Segregation test .....	8
20	Non-metallic inclusion test .....	8
21	Chemical analysis .....	8
22	Retests .....	8
