DIN EN 10084:2008-06 (E)

Case hardening steels - Technical delivery conditions

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Classification and designation 5
4.1 Classification 5
4.2 Designation 6

5 Information to be supplied by the purchaser 6
5.1 Mandatory information 6
5.2 Options 6

6 Manufacturing process 7
6.1 Melting process 7
6.2 Deoxidation 7
6.3 Manufacture of the product 7
6.4 Heat-treatment condition and surface finish at the time of delivery 7
6.5 Cast separation 8

7 Requirements 8
7.1 Chemical composition, hardness and hardenability 8
7.2 Technological properties 8
7.3 Structure 8
7.4 Internal soundness 9
7.5 Surface condition 9
7.6 Dimensions, tolerances on dimensions and shape 9

8 Inspection and testing 9
8.1 Types and contents of inspection documents 9
8.2 Specific inspection and testing 10

9 Marking 10

European Standard 33

683-11:1987 .....and other steel grades previously standardized nationally 35

function of diameter after hardening and tempering at 200 °C 36

Bibliography 37

Annex A (normative) Options 31

Annex B (informative) Dimensional standards applicable to products complying with this Annex C (normative) Determining the microscopic non-metallic inclusions content 34
