|-------------------------|--|-------------|
| European foreword ..... |  | 5           |
| 1                       | Scope .....  | 6           |
| 2                       | Normative References .....                             | 6           |
| 3                       | Terms and definitions .....                            | 7           |
| 4                       | Classification and designation .....                   | 9           |
| 4.1                     | Classification .....                                   | 9           |
| 4.1.1                   | General .....  | 9           |
| 4.1.2                   | Low carbon steels for cold forming .....               | 9           |
| 4.1.3                   | Steels for construction .....                          | 10          |
| 4.1.4                   | Steels with high proof strength for cold forming ..... | 10          |
| 4.1.5                   | Multiphase steels for cold forming .....               | 10          |
| 4.2                     | Designation .....                                      | 10          |
| 4.2.1                   | Steel names .....                                      | 10          |
| 4.2.2                   | Steel numbers .....                                    | 10          |
| 5                       | Information to be supplied by the purchaser .....      | 10          |
| 5.1                     | Mandatory information .....                            | 10          |
| 5.2                     | Options .....  | 11          |
| 6                       | Manufacturing and processing .....                     | 12          |
| 6.1                     | Manufacturing .....                                    | 12          |
| 6.2                     | Processing .....                                       | 12          |
| 6.2.1                   | Ageing .....   | 12          |
| 6.2.2                   | Coating appearance .....                               | 12          |
| 6.2.3                   | Surface protection .....                               | 12          |
| 7                       | Requirements .....                                     | 12          |
| 7.1                     | Chemical composition .....                             | 12          |
| 7.2                     | Mechanical properties .....                            | 17          |
| 7.2.1                   | General .....  | 17          |
| 7.2.2                   | Low carbon steels for cold forming .....               | 18          |
| 7.2.3                   | Steels for construction .....                          | 20          |
| 7.2.4                   | Steels with high proof strength for cold forming ..... | 20          |
| 7.2.5                   | Multiphase steels for cold forming .....               | 22          |
| 7.3                     | Type of coatings and coating mass .....                | 23          |
| 7.4                     | Coating finish .....                                   | 26          |
| 7.4.1                   | General .....  | 26          |
| 7.4.2                   | Zinc coated products (Z) .....                         | 26          |
| 7.4.3                   | Zinc-iron alloy coated products (ZF) .....             | 26          |
| 7.4.4                   | Zinc-aluminium coated products (ZA) .....              | 26          |
| 7.4.5                   | Zinc-magnesium coated products (ZM) .....              | 26          |
| 7.4.6                   | Aluminium-zinc coated products (AZ) .....              | 26          |
| 7.4.7                   | Aluminium-silicon coated products (AS) .....           | 26          |
| 7.5                     | Surface quality .....                                  | 27          |
| 7.5.1                   | General .....  | 27          |
| 7.5.2                   | Types of surface qualities .....                       | 29          |
| 7.5.3                   | Roughness .....  | 29          |

|  |  |           |
|--|--|-----------|
| 7.6  | Surface treatment (surface protection) .....       | 29        |
| 7.6.1  | General .....                                      | 29        |
| 7.6.2  | Chemical passivation (C) .....                     | 30        |
| 7.6.3  | Oiling (O) .....                                   | 30        |
| 7.6.4  | Chemical passivation and oiling (CO) .....         | 30        |
| 7.6.5  | Phosphating (P) .....                              | 30        |
| 7.6.6  | Sealing (S) .....                                  | 30        |
| 7.7  | Coil breaks and bends (kinks) .....                | 30        |
| 7.7.1  | Freedom from coil breaks .....                     | 30        |
| 7.7.2  | Bends (kinks) by winding on coiler drums .....     | 31        |
| 7.8  | Stretcher strains .....                            | 31        |
| 7.9  | Coating mass .....                                 | 31        |
| 7.10   | Adhesion of coating .....                          | 31        |
| 7.11   | Surface condition .....                            | 31        |
| 7.12   | Tolerances on dimensions and shape .....           | 31        |
| 7.13   | Suitability for further processing .....           | 32        |
| 8  | Inspection .....                                   | 32        |
| 8.1  | Types of inspection and inspection documents ..... | 32        |
| 8.2  | Test units .....                                   | 32        |
| 8.3  | Tests to be carried out .....                      | 32        |
| 8.4  | Sampling .....                                     | 32        |
| 8.5  | Test methods .....                                 | 33        |
| 8.5.1  | Tensile test .....                                 | 33        |
| 8.5.2  | Plastic strain ratio and hardening exponent .....  | 33        |
| 8.5.3  | Bake Hardening index .....                         | 33        |
| 8.5.4  | Surface inspection .....                           | 33        |
| 8.5.5  | Coating mass .....                                 | 34        |
| 8.6  | Retests .....                                      | 34        |
| 9  | Marking .....                                      | 34        |
| 10   | Packing .....                                      | 34        |
| 11   | Storage and transportation .....                   | 35        |
| <b>Annex A (normative) Reference method for determination of the zinc, zinc-iron, zinc-aluminium, zinc-magnesium and aluminium-zinc coating mass .....</b> |  | <b>36</b> |
| A.1  | Principle .....                                    | 36        |
| A.2  | Reagent and preparation of the solution .....      | 36        |
| A.2.1  | Reagent .....                                      | 36        |
| A.2.2  | Preparation of the solution .....                  | 36        |
| A.3  | Apparatus .....                                    | 36        |
| A.4  | Procedure .....                                    | 36        |
| <b>Annex B (normative) Reference method for determination of the aluminium-silicon coating mass ..</b>   |  | <b>37</b> |
| B.1  | Principle .....                                    | 37        |
| B.2  | Reagents .....                                     | 37        |
| B.3  | Procedure .....                                    | 37        |
| B.3.1  | Samples .....                                      | 37        |
| B.3.2  | Method .....                                       | 37        |
| B.4  | Evaluation .....                                   | 37        |
| <b>Annex C (normative) Method for determination of the mass of the Al-Fe-Si alloy layer .....</b>  |  | <b>38</b> |
| C.1  | Principle .....                                    | 38        |
| C.2  | Reagents .....                                     | 38        |
| C.2.1  | Tin (II) chloride solution .....                   | 38        |
| C.3  | Procedure .....                                    | 38        |
| C.3.1  | Removal of the non-alloy layer .....               | 38        |

|  |   |           |
|--|---|-----------|
| <b>C.3.2</b>   | <b>Determination of alloy layer .....</b> | <b>38</b> |
| <b>C.4</b>   | <b>Evaluation .....</b>                   | <b>38</b> |
| <b>Annex D (informative) Technical changes from the previous edition .....</b> |   | <b>39</b> |
| <b>D.1</b>   | <b>Introduction .....</b>                 | <b>39</b> |
| <b>D.2</b>   | <b>Technical changes .....</b>            | <b>39</b> |
| <b>Bibliography .....</b>  |   | <b>41</b> |
