

DIN EN ISO 377:2015-12 (E)

Steel and steel products - Location and preparation of samples and test pieces for mechanical testing (ISO 377:2013, Corrected version)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Terms and definitions	4
4	General requirements	5
4.1	Representative testing	5
4.2	Identification of sample products, samples, rough specimens and test pieces	5
5	Preparation of samples and selection of test pieces	6
5.1	Selection and dimensions of samples and location of test pieces	6
5.2	Direction of axis of test pieces	6
5.3	Condition and separation of samples	7
5.3.1	General	7
5.3.2	Testing in the as-delivered condition	7
5.3.3	Testing in the reference condition	7
6	Preparation of test pieces	7
6.1	Cutting and machining	7
6.2	Reference heat treatment	8
Annex A (normative)	Location of samples and test pieces	9
