ISO 4957:2018 (E)

Tool steels

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Classification and designation

4.1 Classification
4.2 Designation

5 Information to be supplied by the purchaser

5.1 Mandatory information
5.2 Options
5.3 Ordering example

6 Manufacturing process

6.1 General
6.2 Heat-treatment condition and surface condition on delivery
6.2.1 General
6.2.2 Heat-treatment condition
6.2.3 Surface condition

7 Requirements

7.1 General requirements
7.2 Chemical composition and mechanical properties
7.3 Surface quality
7.4 Shape, dimensions and tolerances

8 Inspection, testing and conformance of products

8.1 Inspection and testing procedures and types of inspection documents
8.2 Specific inspection and testing
8.2.1 Number of sample products
8.2.1.1 Chemical composition
8.2.1.2 Mechanical properties
8.2.1.3 Inspection of the surface quality
8.2.1.4 Dimensional inspection
8.2.2 Sampling
8.2.3 Test methods
8.2.4 Retests
8.2.5 Sorting and reprocessing

9 Marking

10 Tables

11 Location of test pieces in the hardening test

11.1 Product diameter or thickness ≥ 15 mm
11.2 Product diameter or thickness < 15 mm

Annex A (informative) Hardness-tempering temperature curves

Annex B (normative) Supplementary or special requirements

B.1 General
B.2 Product analysis
B.3 Verification of the minimum hardness in the hardening test
B.4 Structure
B.5 Surface quality
B.6 Special dimensional inspection
B.7 Non-destructive tests
B.8 Tolerance on mass
B.9 Special agreements for marking

Annex C (informative) Designations of comparable steels

Page count: 33
