ISO 10144:2018 (E)

Steels for the reinforcement and prestressing of concrete — Certification scheme for steel bars and wires

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Initial product and process evaluation

- 4.1 General
- 4.2 Purpose
- 4.3 Organization
- 4.4 Procedure
- 4.4.1 General
- 4.4.2 Assessment of the production conditions
- 4.4.3 Sampling and testing of specimens
- 4.4.3.1 General
- 4.4.3.2 Extent of sampling and testing
- 4.4.3.3 Properties to be tested
- 4.4.3.4 Evaluation of the test results
- 4.4.4 Certification decision and attestation
- 4.4.5 Verification of the long-term quality level
- 4.4.5.1 Extent of testing
- 4.4.5.2 Evaluation

5 Internal inspection by the manufacturer

- 5.1 Purpose
- 5.2 Procedure
- 5.2.1 Conformance testing
- 5.2.1.1 Extent of testing
- 5.2.1.2 Evaluation of the test results
- 5.2.2 Determination of the long-term quality level
- 5.2.2.1 General
- 5.2.2.2 Extent of testing
- 5.2.2.3 Evaluation where characteristic values are specified

6 Surveillance

- 6.1 Organization
- 6.2 Purpose
- 6.3 Procedure
- 6.4 Evaluation
