| 7                       | Requirements .....  | 13          |
| 7.1                     | General .....   | 13          |
| 7.2                     | Chemical composition .....  | 13          |
| 7.2.1                   | Heat analysis .....   | 13          |
| 7.2.2                   | Product analysis .....  | 13          |
| 7.2.3                   | Carbon equivalent values (CEV) and Pcm .....                      | 13          |
| 7.3                     | Mechanical properties .....                                       | 14          |
| 7.3.1                   | General .....   | 14          |
| 7.3.2                   | Post weld heat treatment (PWHT) .....                             | 14          |
| 7.3.3                   | Through thickness testing .....                                   | 14          |
| 7.3.4                   | Flattening or bend test .....                                     | 14          |
| 7.3.5                   | Prequalification for arctic areas .....                           | 14          |
| 7.4                     | Weldability data .....  | 14          |
| 7.5                     | Internal soundness and non-destructive testing .....              | 15          |
| 7.5.1                   | Non-destructive testing of the weld seam of hollow sections ..... | 15          |
| 7.5.2                   | Laminar discontinuities of hollow sections .....                  | 15          |
| 7.6                     | Surface quality .....   | 15          |
| 7.7                     | Dimensions, tolerances, mass .....                                | 16          |
| 7.7.1                   | Dimensions and tolerances on dimensions and shape .....           | 16          |
| 7.7.2                   | Mass of steel .....   | 16          |
| 8                       | Inspection .....  | 16          |
| 8.1                     | General .....   | 16          |
| 8.2                     | Types of inspection documents .....                               | 16          |
| 8.3                     | Summary of inspections .....                                      | 18          |
| 8.4                     | Intermediary supply .....   | 23          |

|   |   |           |
