Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Ordering and designation 2

5 Requirements 14
5.1 Manufacturing process 14
5.2 Chemical composition, hardness and hardenability 14
5.3 Shearability 15
5.4 Structure 15
5.5 Internal soundness 15
5.6 Surface quality and decarburization 15
5.7 Shape, dimensions and tolerances 15

6 Inspection, testing and conformity of products 16
6.1 Inspection and testing procedures and types of inspection documents 16
6.2 Specific inspection and testing 17

7 Marking 17

Annex A (normative) Supplementary or special requirements 19

Annex B (informative) Maximum dimensions for flats and rounds based on the 100 % hardenability scatterband 20

Annex C (informative) Guidance values for the mechanical properties of quenched and tempered test pieces 21

Bibliography 22
