ISO 24314:2006-10 (E)

Structural steels - Structural steels for building with improved seismic resistance - Technical delivery conditions

Contents

Page

Foreword iv

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 General requirements 3
4.1 Steel-making process 3
4.2 Delivery condition 3
4.3 Surface conditions 3
4.4 Shape, dimensions, mass and tolerances 3

5 Characteristics of types, grades and qualities 5
5.1 Chemical composition 5
5.2 Mechanical properties 8

6 Inspection and testing 9
6.1 General 9
6.2 Test unit 9
6.3 Position and orientation of test sample (see ISO 377) 9
6.4 Test methods -- Type of test pieces 10
6.5 Inspection documents 11

7 Sorting and reprocessing 11

8 Non-destructive tests 11

9 Marking 12

10 Order 12

Annex A (normative) Position and orientation of test pieces 14

Annex B (normative) Dimensions and sectional properties of H-sections 15

Annex C (normative) The formula of carbon equivalent and the maximum carbon-equivalent value 18
