

# DIN 9926:2019-12 (E)

## Round wire snap rings for bores

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | 3           |
| 1               | Scope .....                                    | 4           |
| 2               | Normative references .....                     | 4           |
| 3               | Symbols .....                                  | 4           |
| 4               | Dimensions and design details.....             | 5           |
| 5               | Technical delivery conditions.....             | 7           |
| 6               | Finish.....                                    | 8           |
| 7               | Testing .....                                  | 8           |
| 7.1             | Bend and fracture test .....                   | 8           |
| 7.2             | Testing the deformation (spiral flatness)..... | 9           |
| 8               | Acceptance inspection .....                    | 9           |
| 9               | Load bearing capacity .....                    | 9           |
| 9.1             | Load bearing capacity of snap ring .....       | 9           |
| 9.2             | Load-bearing capacity of groove.....           | 10          |
| 10              | Design of the groove .....                     | 10          |
| 11              | Assembly.....                                  | 10          |
| 12              | Designation .....                              | 11          |
