Foreword ..... **v**

A1 Foreword to Amendment 1 A1 ..... **vi**

Introduction ..... **vii**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **2**

4 General characteristics of the coating **2**
4.1 Coating metals or alloys and main purposes 2
4.2 Build-up of basic electroplated coating systems 3
4.3 Coating systems and coating processes 4
4.4 Internal hydrogen embrittlement 4
4.4.1 General 4
4.4.2 Fasteners with hardness up to 360 HV 5
4.4.3 Fasteners with hardness above 360 HV and up to 390 HV 5
4.4.4 Fasteners with hardness above 390 HV 5
4.4.5 Fasteners in accordance with ISO 898-1, ISO 898-2 and ISO 898-3 6
4.4.6 Case-hardened fasteners 7
4.4.7 Work hardened fasteners and fasteners with threads rolled after heat treatment 8
4.4.8 Fasteners with bainitic structure 9
4.5 Baking 9

5 Corrosion protection and testing **9**
5.1 General 9
5.2 Neutral salt spray test (NSS) for zinc-based coating systems 10
5.3 Sulfur dioxide test (Kesternich test) 11
5.4 Bulk handling, automatic processes such as feeding and/or sorting, storage and transport 12

6 Dimensional requirements and testing **12**
6.1 General 12
6.2 Fasteners with ISO metric thread 12
6.2.1 Coating thickness 12
6.2.2 Gaugeability and assemblability 13
6.3 Other fasteners 13
6.4 Test methods for thickness determination 14

7 Mechanical and physical properties and testing **16**
7.1 General 16
7.2 Appearance 16
7.3 Corrosion resistance related to temperature 16
7.4 Torque/clamp force relationship 16
7.5 Determination of hexavalent chromium 16

8 Applicability of tests **17**
8.1 General 17
8.2 Tests mandatory for each lot 17
8.3 Tests for in-process control 17
8.4 Tests to be performed when specified by the purchaser 17

9 Designation system **17**
9.1 General 17
9.2 Designation of electroplated coating systems for the order 18
9.3 Examples of designation of hexavalent chromium free electroplated coating systems for fasteners 20
9.4 Designation of fasteners with electroplated coating systems for labelling 21

10 Ordering requirements for electroplating **21**

11 Storage conditions **22**

Annex A (informative) **Design and assembly aspects for joints with coated fasteners** **23**

Annex B (informative) **Hydrogen embrittlement consideration** **31**

Annex C (informative) **Corrosion protection related to zinc coatings with chromate conversion coatings** **36**

Annex D (informative) **Coating thickness and thread clearance for ISO metric threads** **37**

Annex E (informative) **Coating systems tested in accordance with ISO 9227, NSS — Evaluation of cabinet corrosivity for the neutral salt spray test** **44**

Annex F (informative) **Obsolete designation codes for electroplated coating systems on fasteners according to ISO 4042:1999** **54**

Bibliography **57**
