

ISO 7165:2009-03 (E)

Fire fighting - Portable fire extinguishers - Performance and construction

Contents		Page
Foreword		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Classification of extinguishers	4
5	Extinguishing media, propellants and filling requirements	4
5.1	Extinguishing media	4
5.2	Propellants	5
5.3	Filling requirements	5
6	Pressure requirements for low-pressure extinguishers	6
6.1	Test pressure	6
6.2	Minimum burst pressure	6
7	General operating performance requirements	6
7.1	Operating temperatures	6
7.2	Minimum effective discharge time and bulk range of discharge	6
7.3	Resistance to temperature changes	9
7.4	Retention of charge	10
7.5	Mechanical resistance	11
7.6	Resistance to corrosion	13
7.7	Tapping test (powder extinguishers only)	14
7.8	Intermittent discharge test	18
8	Performance requirements for test fires	18
8.1	Rating suitability for the various classes of fire	18
8.2	Test fires -- General	20
8.3	Class A test fire	21
8.4	Class B test fire	23
8.5	Class D test fire	25
8.6	Electrical conductivity of extinguisher discharge	29
8.7	Class F test fire	29
8.8	Class F splash test	31
9	Construction requirements	35
9.1	High-pressure extinguishers	35
9.2	Low-pressure extinguishers	35
9.3	Carrying handle	38
9.4	Mounting	38
9.5	Caps, valves and closures	38
9.6	Safety devices	39
9.7	Manufacturing tests	39
9.8	Requirements for plastics components	40
9.9	Hose assemblies	42
9.10	Method of operation	43
9.11	Safety-locking devices	43
9.12	Requirements for pressure gauges and indicators for low-pressure extinguishers	44

9.13	Dip-tubes and filters -- Water-based extinguishers	46
9.14	Special requirements for CO2 extinguishers	46
9.15	Gasket and O-rings	47
10	Marking and colour	47
10.1	Colour	47
10.2	Marking	47
10.3	Inspection instructions	51
11	Manuals	51
11.1	User manual	51
11.2	Service manual	52
Annex A (normative) Alternate test fire for powder extinguishers with a rating exceeding 144B		53
