

# DIN EN 1777:2010-06 (E)

## Hydraulic platforms (HPs) for fire fighting and rescue services - Safety requirements and testing

---

| <b>Contents</b>    |  | <b>Page</b> |
|--------------------|--|-------------|
| Foreword .....     |  | 4           |
| Introduction ..... |  | 6           |
| 1                  | Scope .....  | 7           |
| 2                  | Normative references .....   | 7           |
| 3                  | Terms and definitions .....  | 9           |
| 4                  | List of significant hazards .....  | 12          |
| 5                  | Safety requirements and/or protective measures .....   | 15          |
| 5.1                | General .....  | 15          |
| 5.2                | Stability and structural calculations .....  | 15          |
| 5.2.1              | General .....  | 15          |
| 5.2.2              | Loads and forces .....   | 16          |
| 5.2.3              | Determination of loads and forces .....  | 16          |
| 5.2.4              | Stability calculations .....   | 19          |
| 5.2.5              | Structural calculations .....  | 24          |
| 5.3                | Chassis and stabilizers .....  | 26          |
| 5.4                | Extending structure .....  | 28          |
| 5.4.1              | Methods to reduce the risk of overturning and exceeding permissible stresses .....                 | 28          |
| 5.4.2              | Operation of the extending structure in a specific sequence to avoid instability .....             | 31          |
| 5.4.3              | Locking of masts at fixed working position .....   | 32          |
| 5.4.4              | Crushing and shearing points between parts of the extending structure, the base and platform ..... | 32          |
| 5.4.5              | Emergency evacuation means for the platform .....  | 32          |
| 5.4.6              | Operator seat .....  | 34          |
| 5.4.7              | Supporting of extending structure in transport position .....                                      | 34          |
| 5.5                | Extending structure drive systems .....  | 34          |
| 5.5.1              | General .....  | 34          |
| 5.5.2              | Wire rope drive systems .....  | 35          |
| 5.5.3              | Chain drive systems .....  | 37          |
| 5.6                | Platform .....   | 38          |
| 5.7                | Controls .....   | 41          |
| 5.8                | Electrical systems .....   | 44          |
| 5.9                | Pneumatic control systems .....  | 45          |
| 5.10               | Hydraulic drive systems .....  | 46          |
| 5.11               | Hydraulic cylinders .....  | 47          |
| 5.11.1             | Structural design .....  | 47          |
| 5.11.2             | Prevention of unintended movement of the cylinder .....  | 52          |
| 5.11.3             | Verification of requirements on hydraulic cylinders .....  | 52          |
| 5.12               | Static tilt angle .....  | 53          |
| 5.13               | Safety devices .....   | 53          |
| 6                  | Verification .....   | 56          |
| 6.1                | Type tests .....   | 56          |
| 6.1.1              | General .....  | 56          |
| 6.1.2              | Static test to verify the stability calculation .....  | 56          |
| 6.1.3              | Residual load test .....   | 57          |

|  |   |    |
|--|---|----|
| 6.1.4  | Static overload test .....  | 57 |
| 6.1.5  | Ladder type tests .....   | 57 |
| 6.1.6  | Dynamic tests .....   | 58 |
| 6.1.7  | Tests of vertical load sensing and total moment sensing systems .....   | 58 |
| 6.1.8  | Type test on noise .....  | 59 |
| 6.2  | Acceptance tests .....  | 59 |
| 7  | Information for use .....   | 59 |
| 7.1  | Instruction handbook .....  | 59 |
| 7.1.1  | General .....   | 59 |
| 7.1.2  | Operating instructions .....  | 59 |
| 7.1.3  | Transport, handling and storage information .....   | 60 |
| 7.1.4  | Information on commissioning .....  | 61 |
| 7.1.5  | HP details .....  | 61 |
| 7.1.6  | Maximum permitted loads on the platform .....   | 61 |
| 7.1.7  | Maintenance information for use by trained personnel .....  | 61 |
| 7.1.8  | Special working methods or conditions .....   | 62 |
| 7.1.9  | Operating instructions for emergency .....  | 62 |
| 7.1.10   | Periodical examinations and tests .....   | 62 |
| 7.2  | Marking .....   | 62 |
| 7.3  | Safety signs .....  | 64 |
| Annex A (informative) Special loads and forces -- Use of HP's in wind speeds greater than Beaufort Scale 6 (see 5.2.3.4.1) .....   |   | 65 |
| Annex B (informative) Dynamic factors in stability and structural calculations .....   |   | 66 |
| Annex C (informative) Major alterations and repairs .....  |   | 67 |
| Annex D (normative) Design of wire rope drive systems for the extending structures and platform levelling systems .....            |   | 68 |
| D.1  | General .....   | 68 |
| D.2  | Calculation of rope drive .....   | 68 |
| D.3  | Calculation of rope diameter (coefficient c) .....  | 68 |
| D.4  | Calculation of the diameters of rope drums, rope pulleys and compensating pulleys [coefficient (h1 × h2)] ..... | 70 |
| D.5  | Efficiency of rope drives .....   | 73 |
| Annex E (informative) Calculation example of Annex D for wire rope, drum and pulley diameters ...                                  |   | 75 |
| E.1  | Notes .....   | 75 |
| E.2  | Annex D method summarised .....   | 75 |
| E.3  | Example .....   | 76 |
| E.3.1  | General .....   | 76 |
| E.3.2  | Drive group -- See D.2 and Table D.1 .....  | 76 |
| E.3.3  | Calculation of minimum rope diameter -- See D.3 .....   | 76 |
| E.3.4  | Calculation of the diameters of rope drums, pulleys and static pulleys -- See D.4 .....                         | 77 |
| Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC ..... |   | 80 |
| Bibliography .....   |   | 81 |
