## Fire detection and alarm systems - Part 11: Manual call points

---

| <b>Contents</b>  |   | <b>Page</b> |
|--|---|-------------|
| Foreword .....   |   | iv          |
| Introduction .....   |   | vi          |
| <b>1</b>   | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>   | <b>Normative references .....</b>                             | <b>1</b>    |
| <b>3</b>   | <b>Terms and definitions .....</b>                            | <b>2</b>    |
| <b>4</b>   | <b>Requirements .....</b>                                     | <b>3</b>    |
| 4.1  | Compliance .....  | 3           |
| 4.2  | Marking and data .....  | 3           |
| 4.3  | Frangible element .....                                       | 4           |
| 4.4  | Indicators for alarm condition .....                          | 5           |
| 4.5  | Reset facility .....  | 5           |
| 4.6  | Test facility .....   | 5           |
| 4.7  | Construction and design .....                                 | 5           |
| 4.8  | Requirements for software controlled manual call points ..... | 10          |
| <b>5</b>   | <b>Tests .....</b>  | <b>12</b>   |
| 5.1  | General .....   | 12          |
| 5.2  | Operational performance .....                                 | 14          |
| 5.3  | Function test .....   | 16          |
| 5.4  | Test facility test (operational) .....                        | 16          |
| 5.5  | Reliability (endurance) .....                                 | 17          |
| 5.6  | Variation of supply parameters .....                          | 17          |
| 5.7  | Dry heat (operational) .....                                  | 18          |
| 5.8  | Dry heat (endurance) .....                                    | 19          |
| 5.9  | Cold (operational) .....                                      | 20          |
| 5.10   | Damp heat, cyclic (operational) .....                         | 21          |
| 5.11   | Damp heat, cyclic (endurance) .....                           | 22          |
| 5.12   | Damp heat, steady state (endurance) .....                     | 22          |
| 5.13   | SO <sub>2</sub> corrosion (endurance) .....                   | 23          |
| 5.14   | Shock (operational) .....                                     | 24          |
| 5.15   | Impact (operational) .....                                    | 25          |
| 5.16   | Vibration, sinusoidal (operational) .....                     | 26          |
| 5.17   | Vibration, sinusoidal (endurance) .....                       | 27          |
| 5.18   | Electromagnetic compatibility (EMC) (operational) .....       | 28          |
| 5.19   | Enclosure protection .....                                    | 29          |
| 5.20   | Exposure to simulated solar radiation (endurance) .....       | 30          |
| <b>6</b>   | <b>Test report .....</b>                                      | <b>31</b>   |
| <b>Annex A (normative) Test apparatus for test of operation .....</b>        |   | <b>32</b>   |
| <b>Annex B (informative) Test apparatus for test for non-operation .....</b> |   | <b>34</b>   |
| <b>Annex C (informative) Apparatus for impact test .....</b>                 |   | <b>35</b>   |
| <b>Bibliography .....</b>  |   | <b>39</b>   |
