## Fire protection - Automatic sprinkler systems - Part 5: Requirements and test methods for deluge valves

---

| <b>Contents</b> |                                                                                                                              | <b>Page</b> |
|-----------------|------------------------------------------------------------------------------------------------------------------------------|-------------|
| Foreword .....  |                                                                                                                              | iv          |
| <b>1</b>        | <b>Scope .....</b>                                                                                                           | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>                                                                                            | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>                                                                                           | <b>1</b>    |
| <b>4</b>        | <b>Requirements .....</b>                                                                                                    | <b>4</b>    |
| 4.1             | Nominal sizes .....                                                                                                          | 4           |
| 4.2             | Connections .....                                                                                                            | 4           |
| 4.3             | Rated working pressure .....                                                                                                 | 4           |
| 4.4             | Body and cover .....                                                                                                         | 4           |
| 4.5             | Strength (see 6.8) .....                                                                                                     | 5           |
| 4.6             | Access for maintenance .....                                                                                                 | 5           |
| 4.7             | Components .....                                                                                                             | 5           |
| 4.8             | Leakage (see 6.7) .....                                                                                                      | 6           |
| 4.9             | Non-metallic components (excluding gaskets, diaphragms, seals and other elastomeric parts) (see 6.4 & 6.5) .....             | 6           |
| 4.10            | Sealing assembly elements (see 6.3) .....                                                                                    | 6           |
| 4.11            | Clearances .....                                                                                                             | 6           |
| 4.12            | Hydraulic friction loss (see 6.6) .....                                                                                      | 8           |
| 4.13            | Endurance (see 6.10) .....                                                                                                   | 9           |
| 4.14            | Operational performance (see 6.9) .....                                                                                      | 9           |
| 4.15            | Drains .....                                                                                                                 | 9           |
| 4.16            | Alarms .....                                                                                                                 | 10          |
| 4.17            | Valve impairment .....                                                                                                       | 10          |
| 4.18            | Height limitations of wet pilot lines .....                                                                                  | 10          |
| <b>5</b>        | <b>Production testing and quality control .....</b>                                                                          | <b>11</b>   |
| <b>6</b>        | <b>Tests .....</b>                                                                                                           | <b>11</b>   |
| 6.1             | Samples .....                                                                                                                | 11          |
| 6.2             | Spring and diaphragm test .....                                                                                              | 11          |
| 6.3             | Sealing element tests (see 4.10) .....                                                                                       | 11          |
| 6.4             | Warm-water ageing test for non-metallic components (excluding gaskets and seals and other elastomeric parts) (see 4.9) ..... | 12          |
| 6.5             | Air ageing test for non-metallic components (excluding gaskets and seals and other elastomeric parts) (see 4.9) .....        | 12          |
| 6.6             | Hydraulic friction loss test (see 4.12) .....                                                                                | 13          |
| 6.7             | Valve leakage and deformation test (see 4.8) .....                                                                           | 13          |
| 6.8             | Body strength test (see 4.5) .....                                                                                           | 13          |
| 6.9             | Operational test (see 4.14) .....                                                                                            | 13          |
| 6.10            | Endurance test (see 4.13) .....                                                                                              | 15          |
| 6.11            | Anti-reseating test (see 4.7.7) .....                                                                                        | 15          |
| 6.12            | Salt mist corrosion test .....                                                                                               | 15          |
| <b>7</b>        | <b>Marking .....</b>                                                                                                         | <b>16</b>   |
| <b>8</b>        | <b>Manufacturer's installation instructions .....</b>                                                                        | <b>17</b>   |
