Fire protection - Foam fire extinguishing systems - Part 5: Fixed compressed air foam equipment

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Abbreviated terms	3
5 Requirements	3
5.1 Compliance	3
5.2 General	3
5.3 Operation and control of systems	4
6 Tests	4
6.1 General	4
6.2 CAF fire extinguishment tests/verification	5
6.3 CAF foam quality measurements	7
6.4 CAF foam discharge devices	10
6.5 CAF generation and proportioning	10
6.6 Salt fog corrosion	11
6.7 Thermal shock	11
7 Test report	12
8 Data	12
8.1 Operating instructions	12
8.2 Service and maintenance instructions	13
8.3 Fault causes and corrective actions	14
9 Marking	14
Annex A (normative) Conductivity test procedure	15
Annex B (normative) Low expansion foam fire test configurations	17
Annex C (normative) Low expansion foam fire test chronology	18
Bibliography	19
