

DIN EN 13565-1:2019-07 (E)

Fixed firefighting systems - Foam systems - Part 1: Requirements and test methods for components

Contents		Page
European foreword		4
1 Scope		6
2 Normative references		6
3 Terms and definitions		7
4 General construction requirements		10
4.1 Connections		10
4.2 Parts intended for removal during routine field maintenance		10
4.3 Hydrostatic strength		10
4.4 Castings		11
4.5 Corrosion resistance of metal parts		11
4.6 Elastomers		12
4.7 Plastics and reinforced resin materials		12
4.8 Heat and fire resistance		12
4.9 Components for low expansion foam systems		13
4.10 Components for medium and high expansion foam systems		14
4.11 Tanks and pressure vessels for foam concentrates or solutions		14
5 Performance Characteristics of Foam Components		15
5.1 Discharge coefficients and characteristics of branchpipes, sprayers and low and high back pressure foam generators		15
5.2 Quality of foam from aspirating components		15
5.3 Accuracy of proportioning components		16
6 Documentation		16
6.1 Preparation and maintenance		16
6.2 Installation and user documentation		16
6.3 Design documentation		16
7 Marking		17
8 Evaluation of conformity - Initial type testing		17
8.1 Conformity		17
8.2 Modification		17
8.3 Prior testing		17
8.4 Grouping		17
8.5 Related components		17
8.6 Normal production		18
8.7 Reference samples		18
8.8 Test sequence		18
Annex A (normative) Hydrostatic test		19
A.1 General		19
A.2 Leak test		19
A.3 Mechanical strength		19

Annex B (normative) Ageing test for plastics, thermoplastics or thermosets; and reinforced resin materials	20
B.1 General	20
B.2 Tensile strength and elongation test	20
B.3 Impact test	20
Annex C (normative) Liquid exposure test	21
Annex D (normative) Heat and fire resistance test for foam generators	22
Annex E (normative) Flow tests	23
E.1 General	23
E.2 Discharge coefficient	23
E.3 Discharge characteristic	23
Annex F (normative) Quality of foam from aspirating components	24
F.1 General	24
F.2 Low expansion foams	24
F.3 Medium expansion foams	24
Annex G (normative) High expansion foam generator test	25
Annex H (normative) Range tests for branchpipes	26
Annex I (normative) Area coverage test for foam sprayers and nozzles	27
Annex J (normative) Maximum flow and back pressure	29
J.1 General	29
J.2 Flow	29
J.3 Back pressure	29
J.4 Vapour seals	29
J.4.1 Vapour seal - upstream (foam inlet side)	29
J.4.2 Vapour seal - downstream (tank side)	30
Annex K (normative) Insertion and deployment of semi-subsurface hose	31
Annex L (normative) Salt spray corrosion test	32
Annex M (normative) Stress corrosion test	33
Annex N (normative) Internal corrosion test	34
