

# DIN EN 12259-14:2020-07 (E)

## Fixed firefighting systems - Components for sprinkler and water spray systems - Part 14: Sprinklers for residential applications

---

Contents	Page
European foreword .....	6
1 Scope .....	7
2 Normative references .....	7
3 Terms and definitions .....	7
4 Construction and performance .....	10
4.1 General .....	10
4.2 Dimensions and pressure rating .....	10
4.3 Nominal operating temperature .....	11
4.4 Operating temperatures .....	11
4.5 Water flow and distribution .....	12
4.6 Function .....	13
4.7 Fire Test .....	13
4.8 Strength of sprinkler body and deflector .....	13
4.9 Strength of release element .....	14
Figure 1 -- Graph of service load and bulb strength distribution curves .....	14
4.10 Leak resistance and hydrostatic strength .....	15
4.11 Heat exposure .....	15
4.12 Corrosion .....	15
4.13 Water hammer .....	16
4.14 Thermal response .....	16
4.15 Resistance to vibration .....	16
4.16 Resistance to impact .....	16
4.17 Resistance to low temperature .....	16
4.18 Resistance to heat .....	16
4.19 Test conditions .....	16
5 Marking .....	17
5.1 General .....	17
5.2 Identification number .....	17
5.3 Nominal operating temperature and year of manufacture .....	17
5.4 Manufacturing location .....	17
5.5 Heat sensitive element supplier .....	17
5.6 Protective covers .....	17
5.7 Sidewall sprinklers .....	18
5.8 Concealed sprinklers .....	18
5.9 Removable recessed housing .....	18
6 Instruction charts .....	18
6.1 General .....	18
6.2 Installation Instructions .....	18
Annex A(normative) Conditions for tests .....	20
Annex B(normative) Water flow test .....	21
Figure B.1-- Water flow test apparatus .....	22

<b>Annex C(normative) Water distribution test .....</b>	<b>23</b>
<b>C.1 Water distribution test - Horizontal surface .....</b>	<b>23</b>
C.1.1 General .....	23
C.1.2 Upright, pendant, flush, recessed and concealed sprinklers .....	23
<b>Figure C.1 -- Horizontal surface water collection for upright and pendant sprinklers .....</b>	<b>24</b>
C.1.3 Sidewall Sprinklers .....	24
<b>Figure C.2 -- Horizontal surface water collection for sidewall sprinklers .....</b>	<b>25</b>
<b>C.2 Water distribution test - vertical surface .....</b>	<b>26</b>
C.2.1 Test method .....	26
<b>Figure C.3 -- Vertical water collection .....</b>	<b>27</b>
C.3 Water impingement test .....	28
<b>Annex D(normative) Fire test .....</b>	<b>29</b>
<b>D.1 Extent of testing .....</b>	<b>29</b>
<b>Figure D.1 -- Fire test arrangement - pendant, upright, flush, recessed pendant, and concealed sprinklers .....</b>	<b>30</b>
<b>Figure D.2 -- Fire test arrangement - sidewall sprinklers, test arrangement No. 1 .....</b>	<b>31</b>
