European foreword 6

1 Scope 8

2 Normative references 8

3 Terms and definitions 9

4 General construction requirements 12
4.1 Connections 12
4.1.1 Permanent connections and joints 12
4.1.2 Bolting of pressure retaining parts 12
4.2 Parts intended for removal during routine field maintenance 12
4.2.1 Removal 12
4.2.2 Re-assembly 12
4.3 Hydrostatic strength 12
4.3.1 Leak test 12
4.3.2 Mechanical strength 13
4.4 Castings 13
4.5 Corrosion resistance of metal parts 13
4.5.1 Salt spray corrosion resistance of metal parts 13
4.5.2 Copper alloy components stress corrosion test 13
4.5.3 Internal corrosion 14
4.6 Elastomers 14
4.7 Plastics and reinforced resin materials 14
4.7.1 General 14
4.7.2 Resistance to ageing 14
4.7.3 Resistance to exposure to liquids 14
4.8 Heat and fire resistance 15
4.8.1 Sprayers and nozzles 15
4.8.2 Foam generators 15
4.9 Components for low expansion foam systems 15
4.9.1 Foam branchpipes 15
4.9.2 Foam sprayers 15
4.9.3 Foam pourers and foam chambers 15
4.9.4 Vapour seals 16
4.9.5 Low back pressure and high back pressure foam generators 16
4.9.6 Semi-subsurface hose units 16
4.10 Components for medium and high expansion foam systems 16
4.10.1 Nozzles and sprayers 16
4.10.2 High expansion foam generators 16
4.11 Tanks and pressure vessels for foam concentrates or solutions 17
4.11.1 General 17
4.11.2 Tanks at atmospheric pressure 17
4.11.3 Pressure vessels 17

5 Performance Characteristics of Foam Components 17
5.1 Discharge coefficients and characteristics of branchpipes, sprayers and low and high back pressure foam generators 17
5.1.1 Single orifice components 17
5.1.2 Multiple orifice components 18

5.2 Quality of foam from aspirating components 18
5.2.1 Low and medium expansion components 18
5.2.2 High expansion components 18
5.3 Accuracy of proportioning components 18

6 Documentation 18
6.1 Preparation and maintenance 18
6.2 Installation and user documentation 19
6.3 Design documentation 19

7 Marking 19

8 Evaluation of conformity - Initial type testing 19
8.1 Conformity 19
8.2 Modification 20
8.3 Prior testing 20
8.4 Grouping 20
8.5 Related components 20
8.6 Normal production 20
8.7 Reference samples 20
8.8 Test sequence 20

Annex A (normative) Hydrostatic test 22

A.1 General 22
A.2 Leak test 22
A.3 Mechanical strength 22

Annex B (normative) Ageing test for plastics, thermoplastics or thermosets; and reinforced resin materials 23

B.1 General 23
B.2 Tensile strength and elongation test 23
B.3 Impact test 23

Annex C (normative) Liquid exposure test 24

Annex D (normative) Heat and fire resistance test for foam generators 25

Annex E (normative) Flow tests 26

E.1 General 26
E.2 Discharge coefficient 26
E.3 Discharge characteristic 26

Annex F (normative) Quality of foam from aspirating components 27

F.1 General 27
F.2 Low expansion foams 27
F.3 Medium expansion foams 27

Annex G (normative) High expansion foam generator test 28

Annex H (normative) Range tests for branchpipes 29

Annex I (normative) Area coverage test for foam sprayers and nozzles 30

Annex J (normative) Maximum flow and back pressure 32

J.1 General 32
J.2 Flow 32
J.3 Back pressure 32

J.4 Vapour seals 32
J.4.1 Vapour seal - upstream (foam inlet side) 32
J.4.2 Vapour seal - downstream (tank side) 32

Annex K (normative) Insertion and deployment of semi-subsurface hose 34

Annex L (normative) Salt spray corrosion test 35

Annex M (normative) Stress corrosion test 36

Annex N (normative) Internal corrosion test 37
