DIN EN 12094-8:2006-07 (E)

Fixed firefighting systems - Components for gas extinguishing systems - Part 8: Requirements and test methods for con nectors

Contents

Page

Foreword 3

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Requirements 7
4.1 General design 7
4.2 Connection threads 8
4.3 Resistance to leakage 8
4.4 Resistance to bursting 8
4.5 Resistance of type 2 and type 4 connectors to pressure and heat 8
4.6 Resistance of type 2 and type 4 connectors to heat and cold shock 9
4.7 Resistance of flexible connectors to cold 9
4.8 Resistance of type 2 connectors to flexing 9
4.9 Documentation 9

5 Type test methods 10
5.1 Conditions 10
5.2 Samples 10
5.3 Compliance 11
5.4 Test for resistance to leakage 11
5.5 Test for resistance to bursting 11
5.6 Test for resistance of type 2 and type 4 connectors to pressure and heat 12
5.7 Test for resistance of type 2 and type 4 connectors to heat and cold shock 12
5.8 Test for resistance of flexible connectors to cold 12
5.9 Test for resistance of type 2 connectors to flexing 12

6 Marking 12

7 Evaluation of conformity 13
7.1 General 13
7.2 Initial type testing 13
7.3 Factory production control (FPC) 14

Annex ZA (informative) Clauses of this European Standard addressing the provisions of the Construction Products Directive 18

ZA.1 Scope and relevant characteristics 18

ZA.2 Procedure for the attestation of conformity of connectors 19

ZA.3 CE Marking and labelling 20
