

DIN EN 54-2/A1:2007-01 (E)

Fire detection and fire alarm systems - Part 2: Control and indicating equipment

Contents	Page
Foreword	4
Foreword	5
2 Normative references	5
3 Definitions and abbreviations	5
5 General requirements for indications	8
7 The fire alarm condition	8
7.5 Other indications during the fire alarm condition	9
7.8 Output to fire alarm devices (option with requirements - see also 8.2.5 a) and 9.4.2 a))	9
7.9 Control of fire alarm routing equipment (options with requirements)	10
7.9.1 Output to fire alarm routing equipment (option with requirements - see also 8.2.5 b) and 9.4.2 b))	10
7.9.2 Alarm confirmation input from fire alarm routing equipment (option with requirements) ...	10
7.10 Outputs to fire protection equipment (options with requirements)	10
7.10.1 Output type A (option with requirement - see also 8.2.4 f) and 9.4.1 b))	10
7.10.2 Output type B (option with requirement - see also 8.2.4 f) and 9.4.1 b))	10
7.10.3 Output type C (option with requirement - see also 8.2.4 f) and 9.4.1 b))	10
7.10.4 Fault monitoring of fire protection equipment (option with requirement - see also 8.2.4 f))	10
7.11 Delays to outputs (option with requirements; see also Annex E)	10
7.12 Dependencies on more than one alarm signal (options with requirement)	11
7.12.1 Type A dependency (option with requirement)	11
7.12.2 Type B dependency (option with requirement)	12
7.12.3 Type C dependency (option with requirement)	12
8 Fault warning condition (see also Annex F)	12
8.2 Indication of faults	13
8.4 Total loss of the power supply (option with requirements)	14
8.8 Fault output	14
8.9 Output to fault warning routing equipment (option with requirements - see also 8.2.4.g) and 9.4.1.c))	14
9 Disabled condition	14
10 Test condition (option with requirements)	15
10.3 Indication of zones in the test state	15
11 Standardized input/output interface (option with requirements - see also Annex G)	16
12 Design requirements	16
13 Additional design requirements for software controlled control and indicating equipment	18
13.4 Program monitoring (see also Annex I)	18
13.5 The storage of programs and data (see also Annex I)	19
13.6 The monitoring of memory contents	19
14 Marking	19

15	Tests	20
15.1.5	Provision for tests	20
15.3	Environmental tests	20
15.3.1	General	20
15.3.2	Tests for one specimen	21
15.3.3	Tests for more than one specimen	21
15.8	Electromagnetic Compatibility (EMC), Immunity tests (operational)	22
EN 54-2:1997/A1:2006 (E) Annex A (informative) Explanation of access levels		25
Annex B (informative) Optional functions with requirements and alternatives		26
Annex E (informative) Delays to outputs		27
Annex H (informative) Integrity of transmission paths		29
Annex I (informative) Design requirements for software controlled control and indicating equipment		30
