DIN EN 203-2-3:2006-02 (E)

Gas heated catering equipment - Part 2-3: Specific requirements - Boiling pans

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

5.1.5.2 Soundness of the construction products circuit 5
5.2.101 Flexible hoses and/or rotating connections 5
5.3.2 Stability and mechanical safety 5
5.3.2.101 Tilting boiling pans 5
5.3.2.102 Covers 6
5.3.2.103 Boiling pans fitted with stirrers and/or mixers 6

6.3.2.2 Protection against burns 6
6.3.101 Special requirement for tilting boiling pans 6
6.8.2 Pressurised parts 6
6.10 Rational use of energy 6

7.2.101 Soundness of gas circuits in appliances with flexible hoses and/or rotating connections 7
7.4.2 Temperature limits 7
7.8.1 Stability and mechanical safety 7
7.8.101 Lack of heat bearing fluid 7
7.8.102 Stability and mechanical safety of tilting parts 7
7.101 Rational use of energy 7

9.2.1 Data plates and labels 8
9.2.2.101 Indicated level 8
9.3.2 Instructions for use and maintenance 9
9.3.3 Instructions for installation and adjustment 9
