

DIN EN ISO 24342:2012-04 (E)

Resilient and textile floor-coverings - Determination of side length, edge straightness and squareness of tiles (ISO 24342:2007)

Contents		Page
Foreword		3
1	Scope	4
2	Terms and definitions	4
3	Principle	5
4	Apparatus	5
5	Sampling and selection of specimens	9
6	Atmosphere for conditioning and testing	10
7	Procedure	10
7.1	General	10
7.2	Side length	10
7.2.1	Gauge method	10
7.2.2	Movable dial gauge method	10
7.2.3	Sliding calliper method	10
7.3	Squareness	10
7.3.1	Thickness gauge method	10
7.3.2	Movable dial gauge method	11
7.4	Straightness	11
7.4.1	Thickness gauge method	11
7.4.2	Movable dial gauge method	11
8	Calculation and expression of the results	11
8.1	For thickness gauge apparatus	11
8.1.1	Side length	11
8.1.2	Squareness	11
8.1.3	Straightness	11
8.2	For movable dial gauge apparatus	11
8.3	For the sliding calliper apparatus	11
9	Precision statement	11
10	Test report	12
