|---------------------------------------|--|-------------|
| Foreword .....                        |  | iv          |
| Introduction .....                    |  | v           |
| 1                                     | Scope .....  | 1           |
| 2                                     | Normative references .....                         | 1           |
| 3                                     | Terms and definitions .....                        | 2           |
| 4                                     | Principle .....                                    | 2           |
| 5                                     | Apparatus .....                                    | 2           |
| 5.1                                   | Means of producing a flexural stress .....         | 2           |
| 5.2                                   | Heating equipment .....                            | 2           |
| 5.3                                   | Weights .....                                      | 2           |
| 5.4                                   | Temperature-measuring instrument .....             | 2           |
| 5.5                                   | Deflection-measuring instrument .....              | 2           |
| 6                                     | Test specimens .....                               | 2           |
| 6.1                                   | General .....                                      | 2           |
| 6.2                                   | Shape and dimensions .....                         | 2           |
| 6.3                                   | Specimen inspection .....                          | 3           |
| 6.4                                   | Number of test specimens .....                     | 3           |
| 6.5                                   | Test-specimen preparation .....                    | 3           |
| 6.6                                   | Annealing .....                                    | 3           |
| 7                                     | Conditioning .....                                 | 3           |
| 8                                     | Procedure .....                                    | 3           |
| 8.1                                   | Calculation of force to be applied .....           | 3           |
| 8.2                                   | Initial temperature of the heating equipment ..... | 3           |
| 8.3                                   | Measurement .....                                  | 3           |
| 9                                     | Expression of results .....                        | 4           |
| 10                                    | Precision .....                                    | 4           |
| 11                                    | Test report .....                                  | 4           |
| Annex A (informative) Precision ..... |  | 5           |
| Bibliography .....                    |  | 9           |
