ISO 15033:2018 (E)

Plastics — Determination of caprolactam and its cyclic and linear oligomers by HPLC

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Reagents

6 Apparatus

7 Test sample

8 Procedure

8.1 Calibration
8.1.1 Method A
8.1.2 Method B
8.2 Determination
8.2.1 Method A
8.2.2 Method B

9 Calculations

9.1 Calculation of calibration factors
9.1.1 Calibration factors for cyclic oligomers
9.1.2 Calibration factors for linear oligomers
9.2 Test sample
9.2.1 Calculation of cyclic oligomer concentrations
9.2.2 Calculation of linear oligomer concentrations

10 Precision

11 Test report

Annex A (normative) HPLC parameters and injector programme — Using eluent A

Annex B (normative) HPLC parameters and injector programme — Using eluent B

Annex C (informative) Schematic diagram of HPLC apparatus
