ISO 15314:2018 (E)

Plastics — Methods for marine exposure

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

4.1 General
4.2 Significance

5 Requirements for apparatus

5.1 General requirements
5.2 Requirements for method A, floating exposure
5.3 Requirements for method B, partial-immersion exposure
5.4 Requirements for method C, shallow-immersion exposure

6 Test specimens

6.1 Form and preparation
6.2 Number of test specimens
6.3 Storage and conditioning

7 Procedure

7.1 General
7.2 Specific procedure for method A, marine floating exposure
7.3 Specific procedure for method B, partial-immersion exposure
7.4 Specific procedure for method C, shallow-immersion exposure
7.5 Evaluation of specimens after exposure

8 Test report

Page count: 12
