

# DIN EN 17228:2019-06 (E)

## Plastics - Bio-based polymers, plastics, and plastics products - Terminology, characteristics and communication

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| European foreword .....  |  | 3           |
| Introduction .....   |  | 4           |
| 1  | Scope .....  | 6           |
| 2  | Normative references .....   | 6           |
| 3  | Terms and definitions .....  | 7           |
| 4  | Bio-based content and bio-based carbon content determination ..... | 9           |
| 4.1  | General .....  | 9           |
| 4.2  | Bio-based carbon content .....                                     | 9           |
| 4.3  | Bio-based content .....  | 9           |
| 5  | Sustainability aspects .....                                       | 9           |
| 6  | Life Cycle Assessment (LCA) .....                                  | 9           |
| 7  | Declaration tools .....  | 10          |
| 7.1  | General .....  | 10          |
| 7.2  | Business to business communication .....                           | 10          |
| 7.3  | Business to consumer communication .....                           | 10          |
| Annex A (informative) Example Data Sheets for the declaration of the characteristics of a bio-based plastic and a bio-based plastics product ..... |  | 11          |
| Annex B (informative) Examples of different ways to display information on bio-based plastics products .....                                       |  | 15          |
| Bibliography .....   |  | 17          |
