ISO 1183-2:2019 (E)

Plastics — Methods for determining the density of non-cellular plastics — Part 2: Density gradient column method

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Conditioning

5 Method

- 5.1 Apparatus
- 5.2 Immersion liquids
- 5.3 Specimens
- 5.4 Procedure
- 5.4.1 Preparation and calibration of glass floats
- 5.4.2 Preparation of density gradient column
- 5.4.3 Measurement of density
- 5.4.4 Calculations

6 Test report

Annex A (informative) Liquid systems suitable for density determinations

Annex B (informative) Preparation of density gradient column
