DIN 16463:2020-11 (E)

Determination of influence of chemical fluids on the long-term hydrostatic strength of pressure pipes made of thermoplastics materials

Contents

Page

Foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 5

4 Principle of method and prerequisites ... 6

5 Test programme if the chemical fluid is not expected to have an influence ... 6
5.1 Prerequisites ... 6
5.2 Testing ... 6
5.3 Test requirement ... 7
5.4 Evaluation of test ... 7

6 Test programme if the chemical fluid is expected to have an influence or if this influence is unknown ... 7
6.1 Prerequisites ... 7
6.2 Testing ... 7
6.3 Evaluation of test ... 8

7 Carrying out the long-term hydrostatic strength test and test report ... 8

Bibliography ... 9
