

ISO 11358-2:2021 (E)

Plastics — Thermogravimetry (TG) of polymers — Part 2: Determination of activation energy

Contents

	Foreword
1	Scope
2	Normative references
3	Terms and definitions
4	Principle
5	Apparatus
6	Mass and temperature calibration
6.1	Mass calibration
6.2	Temperature calibration
7	Test specimens
8	Procedure
8.1	General
8.2	Non-oxidative reactions
8.3	Oxidative reactions
9	Expression of results
9.1	Graphical presentation
9.2	Determination of activation energy
10	Precision
11	Test report
