ISO 3011:2021 (E)

Rubber- or plastics-coated fabrics — Determination of resistance to ozone cracking under static conditions

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Apparatus

6 Test pieces

- 6.1 Type
- 6.2 Selection
- 6.3 Number

7 Time intervals before testing

8 Test conditions

- 8.1 Ozone concentration
- 8.2 Temperature
- 8.3 Relative humidity
- 8.4 Mounting of test pieces under stress and conditioning

9 Procedure

10 Test report

Page count: 4
