

# ISO 24342:2024-06 (E)

## Resilient and textile floor coverings - Determination of side length, edge straightness and squareness of tiles and planks

---

| <b>Contents</b>           |   | <b>Page</b> |
|---------------------------|---|-------------|
| Foreword .....            |   | iv          |
| <b>1</b>                  | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>                  | <b>Normative references .....</b>                                 | <b>1</b>    |
| <b>3</b>                  | <b>Terms and definitions .....</b>                                | <b>1</b>    |
| <b>4</b>                  | <b>Principle .....</b>  | <b>2</b>    |
| <b>5</b>                  | <b>Apparatus .....</b>  | <b>2</b>    |
| 5.1                       | Reference plate .....   | 2           |
| 5.2                       | Rigid metal or glass plate .....                                  | 3           |
| 5.3                       | Flat bedplate apparatus .....                                     | 3           |
| 5.4                       | Dial gauge, calliper gauge and/or thickness gauges .....          | 5           |
| 5.5                       | Movable dial gauges apparatus .....                               | 5           |
| <b>6</b>                  | <b>Sampling and selection of specimens .....</b>                  | <b>6</b>    |
| <b>7</b>                  | <b>Atmosphere for conditioning and testing .....</b>              | <b>6</b>    |
| 7.1                       | Resilient floor coverings .....                                   | 6           |
| 7.2                       | Textile floor coverings .....                                     | 7           |
| <b>8</b>                  | <b>Procedure .....</b>  | <b>7</b>    |
| 8.1                       | General .....   | 7           |
| 8.2                       | Side length .....   | 7           |
| 8.2.1                     | Gauge method .....  | 7           |
| 8.2.2                     | Movable dial gauge method .....                                   | 7           |
| 8.2.3                     | Sliding calliper method .....                                     | 8           |
| 8.3                       | Edge straightness .....   | 8           |
| 8.3.1                     | Thickness gauge method .....                                      | 8           |
| 8.3.2                     | Movable dial gauge method .....                                   | 8           |
| 8.4                       | Squareness .....  | 9           |
| 8.4.1                     | Thickness gauge method .....                                      | 9           |
| 8.4.2                     | Movable dial gauge method .....                                   | 9           |
| <b>9</b>                  | <b>Calculation and expression of the results .....</b>            | <b>9</b>    |
| 9.1                       | For flat bedplate apparatus (5.3) and thickness gauge (5.4) ..... | 9           |
| 9.1.1                     | Side length .....   | 9           |
| 9.1.2                     | Edge straightness .....   | 9           |
| 9.1.3                     | Squareness .....  | 9           |
| 9.2                       | For the movable dial gauge apparatus .....                        | 9           |
| 9.2.1                     | Tiles .....   | 9           |
| 9.2.2                     | Planks .....  | 9           |
| 9.3                       | For the sliding calliper apparatus .....                          | 10          |
| <b>10</b>                 | <b>Test report .....</b>  | <b>10</b>   |
| <b>Bibliography .....</b> |   | <b>12</b>   |
