

DIN EN 17988-1:2025-03 (E)

Circular design of fishing gear and aquaculture equipment - Part 1: General requirements and guidelines

Contents		Page
European foreword		3
Introduction		4
1	Scope	6
2	Normative references	6
3	Terms and definitions	6
4	Outline of the EN 17988 series	6
5	Overview of plastics use in fishing gear and aquaculture equipment	7
6	General principles of circular design of fishing gear and aquaculture equipment	8
6.1	Circular economy transition process	8
6.2	Waste hierarchy and circular economy	8
6.3	Life cycle perspective	9
6.4	Resource and material efficiency	9
6.5	Optimizing strategies in product design and business models	10
6.6	Extended Producer Responsibility (EPR) schemes	10
7	Stakeholders and their roles and responsibilities in the value network	10
7.1	Value network	10
7.2	Key actors and their roles	11
7.2.1	Producers of fishing gear and aquaculture equipment	11
7.2.2	Delivery and installation stakeholders	12
7.2.3	Users: fishers or aquaculturists	12
7.2.4	Retrievers of ALD fishing gear and aquaculture equipment from seas	12
7.2.5	End-of-use fishing gear or aquaculture equipment collectors	12
7.2.6	Waste handlers	13
7.2.7	Waste pre-processor	13
7.2.8	Sorters	13
7.2.9	Recyclers	13
7.2.10	Authorities	13
7.2.11	Other Stakeholders	14
8	General approaches for increasing the circularity of fishing gear and aquaculture equipment	14
8.1	General design aspects	14
8.2	Collection at end-of-use	14
8.3	Reuse and preparing for reuse	15
8.4	(High-quality) recycling	15
8.5	Abandoned, lost or otherwise discarded (ALD) fishing gear and aquaculture equipment ..	16
